WACO, TEXAS, FRIDAY, APRIL 4, 1913. —10 PAGES

VOLUME 2, NUMBER 164

HUERTA WILL LEAVE OFFICE

PRESIDENT OF MEXICO AGREES TO THE NAMING OF ANOTHER.

LASCURAIN IS FAVORED

WOULD SERVE UNCOMPLETED TERM OF LATE MADERO.

PRESENT CABINET TO CONTINUE

This Arrangement May Bring End to Revolution—Appeal Received By Governor Colquitt.

El Paso, Tex., April 3.—To satisfy all factions in the Mexican melee, General Huerta has agreed to the naming of Pedro Lascurain as provisional president, said advices received here today directly from the national capital. Lascurain would serve out the uncompleted term of late President Madero.

As minister of interior relations in Madero's former cabinet, Lascurain is entitled to serve as next in line, in view of the deaths of Madero and Vice President Suarez. The Huerta cabinet would be retained by the compromise.

This arrangement, it is said, has been offered to the constitutionalists now fighting the Huerta government in northern Mexico. It is declared that Governor Carranza of Coahuila has agreed and that the Sonora insurgents will fall in line.

The decision of the president is said to have been occasioned by the recent uprising of Zapata in the south, which places the Huerta forces between two fires.

Mexican military men here estimate that Huerta has not more than 14,000 troops in all Mexico with which to meet the situation.

This is even less than Porfirio Diaz possessed in combating the Madero revolution. Madero, on taking office, began recruiting volunteer troops, with the ex-insurrecto corps as a basis. In the meantime the regular army was not recruited to normal strength.

The desertion to the opposing side of the majority of the regular troops has left the actual government forces far below par.

COLQUITT RECEIVES APPEAL.
Mexican Consul Reports on Contemplated Battle.

Austin, April 3.—Governor Colquitt was requested today by Mexican Consul J. A. Fernandez, located at San Antonio, to assist him in enforcing of the neutrality laws along the Rio Grande. According to reports received by the Mexican consul an armed assault was to be made upon Matamoros not later than Sunday.

He stated that there was no border patrol between Brownsville and Laredo and that revolutionary activities were easily noticeable, particularly in the vicinity of Mission. Several shipments of munitions had been recently shipped into that section, and a shipment of 3000 rounds of 30-20 was recently consigned to a firm in Azules, Texas.

Revolutionary leaders recently have been crossing the border to communicate with the revolutionary junta, and the Madero brothers in San Antonio. A car loaded with ammunition is said to be en route to Eagle Pass.

The proposed attack has been brewed on American soil, claims the Mexican consul.

Governor Colquitt in reply cited the recent trouble along the border, and the attitude of the United States government, and suggested to Consul Fernandez that the matter be taken up with the federal authorities.

He said: "I beg to assure you that I have been ready at all times to do my duty, as the executive of a friendly state in support of law and order, and the established government of Mexico, whether under the administration of Diaz, Madero or the present regime."

Undertaker Faces Charge of Robbing Corpse of Money

Columbus, Ohio, April 3.—Oscar B. Osman, an undertaker of this city, who was arrested today charged with taking money from the body of Mrs. Sarah Souvill, a flood victim, was released on bond tonight and immediately reinstated for investigation. This charge does not admit of bail. Two members of the Ohio National Guard said they witnessed the finding by Osman of \$265 when Mrs. Souvill's body was brought to Osman's undertaking establishment.

Silas Souvill, son of the dead woman, said he had reason to believe his mother had \$500 in her possession when she was drowned. Osman admitted, the police say, that he found about \$265 on a corpse and that it might have belonged to Mrs. Souvill.

FIREMEN CLOSE CASE.
Arbitration Hearing Nears End—Decision April 23.

New York, April 3.—Arbitration proceedings in the controversy between the Brotherhood of Locomotive Firemen and Engineers and 34 eastern railroads over the firemen's demands for increased pay are nearing the end. The firemen today closed their case in rebuttal. Tomorrow the railroads will call witnesses in rebuttal. Elisha Lee, chairman of the conference committee of railroad managers, said he thought these witnesses could give their testimony in half a day.

Simplicity Key to Wedding of Ethel Roosevelt Today

Ex-President's Daughter to Become Wife of Dr. Richard Derby—Only Relatives to Attend Morning Ceremony.

Oyster Bay, N. J., April 3.—Simplicity will mark the ceremony tomorrow morning which will make Miss Ethel Roosevelt, daughter of Colonel Roosevelt, the wife of Dr. Richard Derby of New York. The wedding will be one of the most simple of the season. The ceremony will take place in Christ Episcopal church at Oyster Bay. Three clergymen will officiate, among them the rector of the church, the Rev. George Talmadge. Only relatives and intimate friends have been invited to attend the ceremony and then breakfast afterward at Colonel Roosevelt's home, Sagamore Hill.

Miss Roosevelt will have five attendants, Miss Helen Foster, daughter of Mrs. Charles H. Foster; Miss Josephine Osborne, daughter of Professor Henry F. Osborne; Miss Margaret Tucker, daughter of Samuel A. Tucker; Miss Derby, a relative of the bridegroom; and Miss Cornelia Langdon, a daughter of Henry S. Langdon.

Roger A. Derby will be his brother's best man. The ushers will be Archibald B. Roosevelt, a brother of the bride; James L. Derby, the bridegroom's brother; Edmund P. Rogers, John C. Waterbury, Dr. Henry James and Nelson F. Bossert of Boston.

A novel wedding cake has been prepared. The top will be five inches less than the lower. Lilies of the valley, made of crested sugar, will decorate the five-inch top, and across the top will be a bride's bouquet.

Mr. Derby and his bride will sail for Europe April 5.

Divorced Wife of Copper King Makes Plea on Her Death Bed For Restoration to Husband

New York, April 3.—The court that parted F. Augustus Heinze, the copper king, and his wife, Bernice, will be asked to restore her to him in death. It was Mrs. Heinze's dying wish that this be done for the sake of her child. Her lawyer, Benjamin R. Spellman, began preparation of a remarkable petition today, a few hours after his client's death, to expunge the record of the interlocutory decree already granted.

"I have always loved you, Fritz," she always hoped something would happen to bring you back to me," the dying woman's words of reconciliation with her husband, the death bed scene, her tears and embraces, his assurances of love, his promise to try to fulfill her last wish—all of these will be written into the jurisdiction of the state, together with the testimony, under oath, of Mrs. Heinze's mother, her sister and the nurses who stood nearby. Never before has the supreme court of New York been petitioned to expunge the record of a divorce by a voice from the grave.

"Had she lived it would have been possible for Mrs. Heinze to discontinue this action," Mr. Spellman said today. "Because of her love for Heinze and her hope that something would bring about a reconciliation, she postponed taking the final decree which might have been entered last month. She had only until April 17 to decide whether the decree would be taken, wait, that decree means death between my husband and me. To take it would tear my soul from its body."

"During the last minutes of her life she repeated over and over again the prayer that the record be expunged. I am convinced that there must be some method for the great chancellor to reach out and destroy or seal these records."

PROFESSOR TELLS OF KILLING MAN

EDUCATOR'S STORY ON STAND BRINGS TEARS TO MANY EYES.

SELF DEFENSE IS HIS PLEA

Details Leading Up to Shooting of Laundryman Embrace Breaking of Home.

St. Paul, April 3.—Prof. Oscar Olson, formerly of the University of Minnesota, who admitted he shot and killed Clyde N. Darling, a laundryman, for wrecking his home, took the witness stand this evening and sobbed audibly as he related between Mrs. Olson and Darling were wrung from him.

The court room was crowded and many wept with the defendant, who presented the picture of a broken spirit man. Mrs. Olson buried her face in her hands and wept softly throughout her husband's testimony.

"My wife confessed to me that there had been ill relations between herself and Darling and I warned him to keep away from my home," Olson testified. "He continued to come, despite the warning, and finally succeeded in tearing down the happiness of the home."

"The night of the shooting I was alone," said the witness. "I heard a noise and went to the kitchen to investigate. I saw a man standing inside the door, and I recognized Darling."

"Oh, it's you, — you," he said, and took a step toward me. I had my revolver and fired twice in rapid succession. A second later I saw the wrecker of my home throw his arms into the air and fall limply to the floor."

Professor Olson testified that he first learned of Mrs. Olson's relations with Darling June 16 last.

"When I returned from my office, my wife told me Darling had hugged and kissed her," Olson continued. "I saw Darling one day later in the presence of the man for whom he was working. When I accused him of insulting my wife, he turned pale. Then he recovered himself and said: 'I admit it; it's all my fault.'"

"While in Clearbrook, Minn., November 12, last, I received a message from her urging me to return home immediately. She met me at the door and said: 'Oscar, do I look denuded?' That devilish laundryman is haunting me again. He can't resist his overtures. Please help me to keep him from me."

Olson repeated the details leading to the crime. Several times during his testimony his sobbing forced an interruption. Mrs. Olson is expected to tell her story on the stand tomorrow.

TORNADO SWEEPS MISSOURI CITY; FARMER IS KILLED

Sturgeon, Mo., April 3.—William Mathis, 87 years old, a retired farmer, was killed, his wife Mary and his daughter Ruth, 24 years old, were probably fatally injured, and twenty-five other persons were less seriously hurt today by a tornado that passed within a half mile of Sturgeon.

Twenty houses were demolished by the wind.

McDonald Assumes Duties as Marshall of Texas District

Fort Worth, April 3.—Capt. W. J. McDonald took the oath of office for United States marshal for the northern district of Texas to succeed Marshall Geo. H. Green, before Judge Edward R. McKelvey in the federal court at Fort Worth Wednesday afternoon.

Immediately after taking the oath, Capt. McDonald filed a \$20,000 bond. He then went to Dallas and assumed the duties of office.

Captain McDonald, it is said, is considering the removal of the marshal's headquarters from Dallas to Fort Worth. However, no announcement in that regard has yet been made public.

The first duty which the new marshal performed was the appointment of deputies. All old deputies were appointed. They are: L. B. Farish as chief deputy, D. A. Campbell as assistant deputy, Joe McKelvey as deputy, and L. J. Bolton, deputy in the Amarillo district. Deputies yet to be appointed include those for the Abilene, San Angelo and Fort Worth districts.

Mr. Green has not yet decided what he will do. For the next two weeks he will be in the office of the marshal, most of the time, concluding the affairs of his administration. After that he intends to take a rest of a few weeks.

Extension Work on Balance.

Dallas, April 3.—The extension of Dallas street car lines appears to depend on the provisions of the home rule enabling act, just enacted at Austin. Heretofore the city commission has had full power to grant franchises. Now, however, representatives of various civic and improvement leagues have taken up proposed franchise extensions, claiming that the home rule enabling act will place this power in a commission of ten men, one elected from each ward of the city.

GERMAN AIRSHIP AROUSES FRANCE

FRENCH AUTHORITIES SEIZE A DIRIGIBLE UPON LANDING ACROSS BORDER.

NC-DENT CAUSES EXCITEMENT

Military Aviators Declare Themselves Innocent of Fact They Had Crossed Frontier.

Luneville, France, April 3.—The German military dirigible airship Zeppelin IV landed in the military parade grounds here today and was seized by the French authorities.

The incident has caused tremendous excitement, notwithstanding officers aboard the airship explained that they had been lost in the clouds and did not know they had crossed the French frontier.

Inhabitants of the eastern frontier regions of France have been much agitated the last few weeks over reports that German dirigibles had been observed over the border, hovering over the forts. But the stories, like those of the phantom airship of Kehl, never were properly substantiated.

The people of Luneville were considerably startled shortly before noon today when a yellow airship appeared at a great height in the clouds coming from the direction of Nancy. The airship was lost to view but reappeared an hour later. It was apparent that the pilot was having a battle with the wind and that he was making an effort to reach the eastern border. Finally a safe landing was made in the parade grounds, where two squadrons of cavalry were drilling. The cavalrymen rode up and formed a garden. They caught the ropes thrown from the dirigible and securely moored it.

The local authorities and British Antidive Local immediately were summoned and were closely followed by a huge crowd of excited people. It required the efforts of two companies of infantry to keep the indignant populace at a safe distance.

Ten Passengers Aboard.
Zeppelin IV, which is of the latest and largest model, carried ten passengers of whom four were officers in uniform, a Prussian captain and lieutenant and two Wurtemberg lieutenants.

The captain explained to General Lescot that the Zeppelin was undergoing a test prior to be taken over by the war department. They left Friedrichshafen early in the morning bound for the grand duchy of Baden.

With the intention of making ascension trials, they had mounted to a height of 2,000 meters (about 6,500 feet) and had lost their course in the clouds. They were carried along by a strong east wind and observing the cavalry, thought they had reached Saarlautern. As they were short of gasoline they decided to land. They did not know they had crossed the French frontier.

The chief officer of the engineer corps at Luneville removed the magnet from the engine so the airship could not get under way and the cabin was searched for photographic apparatus, sketches or similar articles. Nothing of that nature, however, was found.

The German officers were permitted to telephone to Friedrichshafen for a supply of hydrogen and for mechanics.

UNITED STATES TO RECOGNIZE CHINA, APRIL 8

Washington, April 3.—President Wilson indicated informally today what the attitude of this government would be toward Mexico, China and the Philippines.

Pending a settlement of affairs in Mexico, holding of elections and establishment of a stable government, recognition probably will be withheld.

The Chinese republic is to be recognized April 8, the meeting day of the new assembly. Notice of this intention has been given to the diplomats of all foreign governments represented here, with a formal proposal that the other governments grant recognition at the same time.

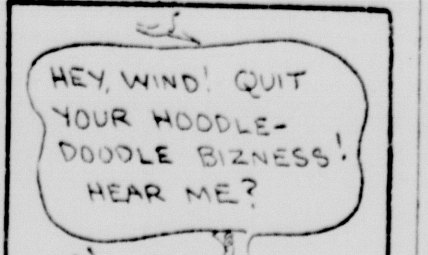

With respect to the Philippines, the president intends to see that the pledge of the Democratic party for the ultimate independence of the islands is carried out. He proposes to give careful consideration to the appointment of a governor general and the Philippine commission.

The president said today that the negotiations which Secretary Bryan began yesterday with the diplomatic corps in regard to China, had not matured, but that an announcement could be expected soon. Intimations here indicate the governments were disposed to wait until an election was held in China and the processes of constitutional government established before recognizing the republic.

Revenue Cutters to Participate.

Washington, April 3.—Two or three revenue cutters will form a federal escort of honor at Put-In-Bay on Lake Erie in July. Acting Secretary Williams of the treasury department today assured the Perry memorial committee, headed by Lieutenant General Nelson A. Miles, that the cutters would participate.

Chilly Winds Are Sure to Come, But Smile—Enjoy Fun

Lower temperatures, possibly showers and for a certain clouds is the prediction of Dr. I. Block, voluntary weather observer for Waco and vicinity, today. The disturbance will be of short duration, the weather man continues, and Saturday sun and warmth will return.

Local Temperatures.
Daily temperatures, furnished by Dr. I. Block, voluntary weather observer, for twenty-four hours ending Thursday at 7 p. m.: Minimum 56, maximum 84. Barometer reading 29.93. Rain 1.45.

Government Forecast.
Washington, April 3.—Louisiana—Cloudy, with rain; showers in eastern portion Friday; Saturday fair, moderate variable winds becoming north.

Waco and vicinity—Cloudy and cooler, possibly showers in south Friday; Saturday fair, moderate variable winds becoming north.

West Texas—Fair and colder Friday; Saturday fair.

3-YEAR SENTENCE AROUSES WOMEN TO SCORE COURT

London, April 3.—Mrs. Emmeline Pankhurst, the leader of the militant suffragettes, today was found guilty and sentenced to three years penal servitude at the Old Bailey sessions on a charge of inciting persons to commit damage.

Immediately the sentence of three years fell from the judge's lips, the women in the court room broke out in a chorus of "shame" and "outrage."

The judge's threat and they finally left the court singing the suffragette "battle song."

Such a scene never before was witnessed at the Old Bailey. Outside the court room the militant women defied the police. "Take us to jail, What do we care?" they shouted.

The street crowd greeted the suffragettes with a mingled chorus of groans, hisses and boos.

There is no possibility of Mrs. Pankhurst saving her sentence of three years. The suffragette leader will undoubtedly be released under Home Secretary McKenna's new bill, permitting a ticket of leave, which the suffragettes have christened "the cat and mouse bill."

American Denies Report.
Washington, April 3.—Charges that Miss Zelle Emerson, the American militant suffragette, now in a British prison for window smashing, has been subjected to "cruel and unusual treatment," are unfounded, according to a report to the state department today from Irwin B. Laughlin, in charge of the American embassy at London. Mr. Laughlin personally investigated the circumstances attending the forcible feeding of Miss Emerson. He reported that Mrs. R. M. Emerson, the prisoner's mother, has "made no complaint whatever as to her daughter's treatment, and has no charge to make that the feeding by a stomach tube has been applied in a manner to cause any discomfort inseparable from its nature."

Friends of Indicted Hero of Ohio Flood Seek Pardon for Him

Washington, April 3.—Department of justice officials, it was said today, will consider the question of pardon for John H. Patterson, president of the Mississippi river difficult tonight, but under sentence to prison for alleged violation of the Sherman anti-trust law, unless he makes application himself or shows that he is favorable to pardon proceedings.

The only thing before the department now is a telegram to President Wilson from friends of Patterson urging his pardon because of his splendid relief work during the Dayton flood. It is indicated that the government must have assurances that the pardon will be accepted if granted.

WILSON AIMS AT HARMONY

DIFFERENCES REGARDING THE TARIFF OFFER FIELD FOR CONSIDERABLE WORK.

INCOME TAX DECIDED

RATES LEFT DEPENDENT UPON OTHER SCHEDULES.

SITUATION SHIFTS TO SENATE

President Has Long Conferences With Members of Ways and Means Committee.

Washington, April 3.—Completion of the new tariff revision bill, the character of the duty to be levied upon sugar and the extent to which President Wilson will give the support of the administration to the completed measure, depended tonight upon the success that might attend efforts of the president to reach an agreement with senate tariff leaders.

The tariff situation shifted to the senate today, with the prospect of much work ahead of the chief executive to smooth over disputed points and to bring the senate into harmony with his own views into harmony with the new bill is brought out to the gaze of the public.

Senators Simmons, Stone and Hoke Smith, all members of the finance committee, had a long conference with President Wilson this afternoon. At its conclusion Senator Simmons, chairman of the committee, said the conference had been in every way satisfactory to the senate members.

Canvass Undertaken.
A sweeping canvass of the senate has been undertaken to determine just how far Democratic members of the body will go in support of the measure. The decision to put raw wool on the free list, and the threat of free sugar have stirred up the Democratic forces of the senate to such an extent that members of the finance committee told the president tonight some important changes would have to be made in the present draft of the bill if it is to meet with a cordial reception when it reaches the senate.

The president also saw Senator Hughes of New Jersey, another member of the finance committee, and a radical revisionist, and Senator John W. Kern, the Democratic leader of the senate. His conference with Senator Kern, which followed that with members of the finance committee, is understood to have given the president a fairly accurate idea of the sentiment prevailing in the senate over the proposed free wool and reduced sugar duties, and over the sweeping reductions in other rates that have been determined upon by the house committee on ways and means.

Today's developments included the practical completion of the bill by the house ways and means committee along the lines agreed to with the president.

Sugar Compromise Expected.
It appeared fairly certain tonight either the sugar duty would be compromised at one cent per pound, possibly with a provision that should be entirely abolished in three years; or that there should be a gradual reduction of 25 per cent per year from the existing duty until it had disappeared.

The senate leaders have made it clear that it would be impossible to pass a bill carrying both free wool and free sugar.

The senate leaders did not reach any general agreement with the president. The results of their conference will be laid before the full Democratic membership of the finance committee at a meeting called for 10:30 o'clock tomorrow morning. The committee then, as to disputed questions, will guide Senator Simmons in future conferences with the president and Chairman Underwood of the ways and means committee.

Simmons Tells of Conference.
"We went over all of the disputed points in the bill with the president tonight," said Senator Simmons, "and the interview was very satisfactory to the senate. It was agreed that the Democratic members of the finance committee should meet tomorrow and go over the ground preliminary to further conferences with other members of the senate, the president and members of the house ways and means committee."

No other statement was made by Senator Simmons or by the other parties to the conference.

An investigation which has been under way for some time has brought out strong opposition to the reduction proposed by the house and sanctioned by the president, in many important schedules. It is understood that senate members insist many of these must be changed if the new bill is to have their support from the outset.

Wilson Still Undecided.
President Wilson made it known today to visitors that he had not settled in his own mind whether there should be one general bill or a series of schedule bills. This feature is considered of high importance both by the president and prominent Democrats in the senate.

House leaders are prepared to enact the entire tariff revision with a single bill, but the attitude of the president will depend upon the rates that are finally agreed to upon sugar and upon certain food products still open to debate.

Several members of the senate finance committee insist they will not accept a general bill. A proposal is now under discussion between the president, the senate and the house leaders to have at least the wool and sugar schedules put into separate bills.

President Wilson is hopeful of having

Further "Direct Evidence"

We give another of the reliable letters making up the great chain of "Direct Evidence" of the curative power of Hood's Sarsaparilla. All who suffer from Nervousness, Neuralgia or Dyspepsia should read this:

"Baltimore, Md., February 8, 1912.
"C. I. Hood & Co., Lowell, Mass.
"Three generations in my family testify to the value of Hood's Sarsaparilla."

Mr. Wm. F. Messer,
Baltimore, Md.

As a good blood purifying and general family medicine.

"My mother's first experience with Hood's Sarsaparilla was really wonderful. She had been suffering for ten years with Neuralgia and Dyspepsia."

As a stomach tonic, and liver and kidney invigorator, Hood's Sarsaparilla has great success. Try it this Spring.

ing an understanding with both senate and house leaders to have at least the wool and sugar schedules put into separate bills.

President Wilson is hopeful of having an understanding with both senate and house so that there may not be any radical differences of opinion when Representative Underwood presents the bill to the house. Senate leaders have not received any intimation, however, that he intends to override their desires or attempt to force them to accept provisions which might arouse general democratic opposition when the bill reaches the senate.

Sugar Stumbling Block.
The sugar schedule remained the only stumbling block when the house and senate committee adjourned late today after considering that and the income tax since early morning. Everything was left to the president as he hoped that his conference with the democratic senators would make it possible for an agreement to be reached and for the bill to be introduced on Monday.

Free wool was finally agreed to by the committee today, the 15 per cent ad valorem advocated by Chairman Underwood being abandoned. This ended the determination reached by President Wilson and members of the committee.

Income Tax Agreed.
The plan for the income tax also was agreed to by the ways and means committee, the rates being left dependent somewhat upon the action to be taken relative to the sugar tariff. It was concluded to place a tax of

and fainting spells; sometimes she would be almost stiff with cold perspiration. She had medical attendance, but did not get any benefit until she heard of Hood's Sarsaparilla and began to take it. She had then so fallen away she did not weigh 100 lbs. The improvement was noticeable right away when she began to take Hood's Sarsaparilla, so she kept on, and gained gradually in strength, weight and general health. The pains, dyspepsia and faintness diminished, and soon she considered herself perfectly well. She could eat well, sleep well, and was happy, and weighed 142 lbs. Her general health has continued good ever since, and she praises Hood's Sarsaparilla at every opportunity.

"With such an experience before us, of course, my wife and I have always thought well of this medicine, but I did not use it myself until I had similar spells of indigestion and nervousness, when I gave it a thorough trial, and I

Eat Almost Anything Now
without distress. My wife also takes Hood's Sarsaparilla as a general tonic and building up medicine. We give it to our three children, because we have found it saves doctors' bills. My wife says she will never be without it. It is true household economy to keep it on hand." Wm. F. Messer.

As a stomach tonic, and liver and kidney invigorator, Hood's Sarsaparilla has great success. Try it this Spring.

10 per cent on incomes exceeding \$100,000.

It was agreed further to differentiate between individual and corporation taxes, the latter to be a flat tax, to be determined when the exact amount of necessary revenue ascertained after the sugar schedule is fixed.

The ways and means committee will meet tomorrow to take up the sugar schedule again, the members expecting further guidance in the matter from the white house as a result of the president's conference tonight with Senators Simmons, Smith and Stone.

Chairman Underwood said tonight that he hoped to introduce the entire bill in the house on Monday, the democratic caucus to take it up afterward. Owing to the fact that the committee has been unable to complete its handbook on the tariff for the use of the caucus, consideration of the committee's report may not be taken up Tuesday.

RADIO TELEGRAPHY IS SUCCESS

Report of Recent Experiments Shows Wonderful Advance Made By New Apparatus.

Washington, April 3.—It was announced that a preliminary report on the recent experiment in radio telegraphy between the scout cruiser Salem, on her voyage to and from Gibraltar and the great wireless tower at Arlington, Va., had proved this station to be second to none. The world, not excepting Eiffel tower, or the great German wireless towers.

In this first test the contract requirement of the dispatch of messages from Arlington to a vessel at least 3,000 miles distant could be only realized at night, but such messages were delivered to the Salem by day up to a distance of 2,383 miles. It was demonstrated, too, by the use of kites on the vessel, messages could have been exchanged throughout the entire trans-Atlantic trip.

Result of interesting experiments made during this voyage with new forms of apparatus are said to mark a new era in long distance radio communication.

RAILROAD MAN DIES.

Edward Orson Hopkins, 55, Had Wide Acquaintance.

Chicago, April 3.—Edward Orson Hopkins, 55 years old, died at a hospital here today after an illness of two weeks. He was born in Evansville, Ind., and was founder and president of the Evansville Trust company. For many years he was receiver for the Peoria, Decatur & Evansville railroad and formerly was connected with the Evansville & Terre Haute railroad. Until two years ago he was president of the Schossel, Sheffield, Steel and Iron company of Birmingham, Ala.

He is survived by a widow and two children. He will be buried at Evansville, Ind.

Sixth Civil Appeals.

Texas, April 3.—The court of civil appeals for the Sixth district today affirmed: Texas and Pacific vs. J. D. Payne et al, from Lamar county; W. L. Bryan et al vs. Tom Moore by next friend, from Hopkins.

Reversed and remanded—A. A. and S. J. Kramer vs. T. J. Bartfield, from Morris; Consumers Fertilizer company vs. J. B. Radt & Co., from Morris; this latter with instructions dismiss appeal to county court.

Refused rehearing in C. W. Carter vs. Kansas City Southern, from Bowie; Marshall and East Texas railway vs. W. J. Blackman, from Upshur; Carver Brothers vs. John Merritt et al, from Titus; L. D. Long vs. L. W. Shelton, from Bowie.

LARGEST VESSEL LAUNCHED.

Vaterland Takes First Dip at Hamburg, Germany.

Hamburg, April 3.—The largest passenger vessel in the world, 5000 tons bigger than the Imperator, also of the Hamburg-American line, was launched here today and christened the Vaterland. She carries 83 life boats, 76 of which can be utilized even if the ship has a heavy list or during a storm, as they may be launched from either side. In the 70 boats accommodation is provided for all the 5440 passengers and 1200 crew. Two of the life boats are lifer with motors. Two other similar vessels are to be constructed by the same company.

507 Austin St.

CITY CHARTER TO PROVIDE AUDITOR

WILL HAVE OVERSIGHT OF ALL BOOKS AND INSTALL UNIFORM SYSTEM.

EXTENDS THE SALOON LIMITS

So as to Take in Property Owned By J. Goldberg—Bond Matter Is Up.

The duties and manner of appointing the city auditor was the greater part of the session of the charter committee last night. All members of the committee are anxious to get all appointive power out of politics, and there was considerable discussion as to the best manner of proceeding along the lines of charter laws to accomplish this end. The discussion was warm on all topics. Several times the chair had to vote in order to break deadlocks.

The already much discussed subject of the manner of taking care of the interest and sinking fund of the waterworks bonds was the cause of further discussion. E. F. Carroll wanted the clause stricken out of the article passed at the last meeting which provides for the city's paying the interest on the bonds. Forest Goodman felt that the city should not pay the interest. Carroll, Randall and Ingram voted for the clause to be stricken out. Newman did not vote. Migel and Goodman voted against the striking out of the clause. It was stricken out.

Poyton Pandle suggested that the city waterworks invest all sinking funds in city bonds. He cited the case which has recently happened, where the departments of the city had enough money in the sinking funds to have bought the last bond issue. The sinking fund was on deposit drawing 3 1/2 per cent interest and the city is forced to pay 5 per cent interest on its bonds, a loss of 1 1/2 per cent because there is no provision which permits the commissioners to buy the city bonds with the city's sinking fund.

Mr. Migel wanted to know whether there might be a loss by the city, in case it bought its own bonds, if it became necessary to retire bonds which the sinking fund was provided for and the bonds that had been bought with this money had to be sold, maybe at a loss. Commissioner Littlefield explained how a transfer was made recently by the city relative to the sinking fund, by paying Austin street, for which no bonds were issued. The transfer was practically the same as that under discussion. Goodman did not want to tie up the commissioners to purchase the city bonds with all money on hand, in sinking funds, and to sell balance of bonds to outside purchasers. This included all sinking funds; not simply the waterworks funds.

The Saloon Limits.
The matter of extending the saloon limits to include property owned by J. Goldberg, who at present runs a saloon at 209 South First street, created a lengthy discussion. He owns property at 100 South First street, which was discriminated against when the saloon limits were changed from his former location on his own property. He pays rent now for property just a block closer to town. Mrs. Newman and Mrs. Ingram are against extending the limits. They felt that other parties would have the same grounds for asking for extensions.

R. McCollum stated that Mr. Goldberg had been present at the last meeting and requested the committee, at the meeting of the committee, that the matter would be brought up at that session, and that all persons interested in extending the limits would be given a hearing. He was the only one who had done so. His request was that he be acted upon. Rev. Mr. Ingram said that he had investigated the matter. The motion to extend the limits carried, Randall, Carroll and Goodman voting for the extension; Migel, Ingram and Mrs. Newman voting against extension and Chairman A. R. McCollum deciding the vote by voting for the extension.

Duties of Auditor.

The duties of the auditor were next discussed. Judge Marshall said that he had prepared a tentative section for the charter, based on that which governs the duties of the county auditor, in the state laws. A motion was made to adopt or change the section so prepared by Judge Marshall, taking it by articles. Rev. Mr. Ingram objected to adopting the section or any part of it until the matter of the auditor's appointment was settled. He made a motion to act upon the manner of the appointment.

The creation of a public service commission invested with all appointive powers, was discussed. This was carried over until the next meeting.

The duties of the auditor were then taken up. Judge Surratt read the section he had prepared. It was very complete, going thoroughly into the duties of the new office. As created the office will take considerable of the work from the city secretary. When it is deemed advisable the city commission is to instruct the city secretary to assist in the duties of the auditor. The salary of the new office was fixed at \$2400 a year. He is to audit all accounts of all departments of the city, including the waterworks, the school trustees and the city mission, and is to prepare all blanks used in the handling of money in the departments, assuring a uniform system. He himself is to handle no funds, but is to keep check on all who do. His bond was fixed at \$5000. The committee adjourned before finishing with the duties of the auditor.

The creating of a public service commission probably will come up at the next meeting of the charter committee.

Large Interests at Chicago.

Chicago, April 3.—J. Pierpont Morgan's property in Cook county is expected to yield an inheritance tax of \$10,000, according to estimates made here today in the office of the tax collector. Judge Owens has appointed Judge Harrison to have charge of the property. Mr. Morgan is said to have large holdings in the Pullman company, International Harvester and the Chicago, Burlington & Quincy road, in addition to \$17,000,000 stock in the Chicago City railway.

EXPERT ADVICE DAYTON'S NEED

APPEAL FROM FLOODED SECTIONS REACHES PRESIDENT WILSON.

RIVERS ARE STILL DANGEROUS

Rains Near Mouth of the Ohio Increase Fears of Those Already Homeless.

Washington, April 3.—President Wilson was appealed to today to lend the expert advice of the federal government in the financial rehabilitation of Dayton, Ohio, necessitated by the devastating flood.

John H. Patterson, chairman of Dayton's relief committee, telegraphed the president as follows:

"Dayton's financial institutions suggest you send a representative to Dayton to consult with and advise them of financial matters."

Acting Secretary Williams of the treasury department, to whom the question was referred, asked Mr. Patterson for a prompt report, with particulars of the subjects upon which the city desires federal advice. The treasury department is closely watching the financial situation in the flooded districts. The sub-treasurer at Cincinnati has practically exhausted its supply of one, two and five-dollar bills. By direction of Acting Secretary Williams \$500,000 in small bills will be on the way to Cincinnati tomorrow to relieve the stringency. In the meantime he authorized the assistant treasurer there to pay out gold to meet the pressing demand.

RAINS LEND DANGER—

Residents at Cairo, Ill., Again Face Trouble.

Cairo, Ill., April 3.—Rain falling in a steady downpour and flood water rushing against the sacks of sand piled on the concrete levee wall changed conditions materially here tonight. Although the weather change naturally would carry with it a negative outlook for the safety of the city, a confidence seems to have sprung up among the citizens who have worked hardest to prevent Cairo's destruction that appeared to offset it.

Day after day the residents have watched the flood waters climb on the levee until tonight it stood slightly above 54.6. The old record was 54.5. There is only a few inches of space between the surface of the water and the top of the concrete wall.

Ensign Martin in charge of the dispatch boat service between Cairo and Mount City, Ill., reported tonight that the levee was still holding at the latter place, but that the Ohio waters had backed into Cache river to an alarming height and that the levee back of the town appeared quite weak. Most of the 600 persons there are now encamped in the court house, including two companies of guardsmen.

CONDITIONS ALONG MISSISSIPPI.

Wave Washes Reported But None Serious.

Memphis, Tenn., April 3.—High winds and a beating rain made work for the flood fighters along the Mississippi river difficult tonight, but unless the disturbance is prolonged, the fight does not think the consequences will be serious. Wave washes were reported from several points, but so far as reports received here indicate damage to the levee has been slight.

Major C. H. Markham, engineer in charge of the corps of United States engineers stationed here, asserted tonight that men in sufficient numbers were available at all points that might be endangered. At Memphis the river rose one foot today, the gauge at 7 o'clock showing a stage of 49.4, Vicksburg, Miss., reported 41.6 feet, a rise of three-tenths in 12 hours.

WACO HEARS OF SUFFERING

Representative of National Cash Register Company Gets Telegram Telling of Conditions.

V. C. McIntyre of Waco, district manager of the National Cash Register company yesterday received a telegram from W. S. McWhorter, southern manager of the same company in which an appeal is made for co-operation in assisting the flood sufferers of Ohio. The telegram follows:

"Bippis, as secretary-treasurer of the Citizens' Relief committee of Dayton, Ohio, writes me that the situation in Dayton is appalling. Financial help is urgently needed to feed, clothe and restore our people into their homes. Thousands are homeless, sanitary problems confront us and the work will involve a great expenditure. You are asked to get in touch with mayors and chambers of commerce, that their aid may be received. Address all contributions to secretary-treasurer as above addressed."

GRAY FADED HAIR, OR BEAUTIFUL DARK, ATTRACTIVE—CHOOSE, MADAM!

Says Sage Tea Mixed With Sulphur Restores Natural Color and Lustre.

Gray, faded hair turned beautifully dark and lustrous almost overnight, is a reality, if you'll take the trouble to mix sage tea and sulphur, but what's the use? You get a large bottle of the ready-to-use tonic, called "Wyeth's Sage and Sulphur Hair Remedy" at drug stores here for about 50 cents. Millions of bottles of "Wyeth's" are sold annually, says a well-known druggist, because it darkens the hair so naturally and evenly that no one can tell it has been applied. You just dampen a sponge or soft

WORK ON LEVEES CONTINUES; SOME ARE SUFFERING

Hickman, Ky., April 3.—While all of the Mississippi levees in the vicinity of Hickman are holding tonight, a severe wind and rain storm which prevailed for several hours has caused some apprehension to those back of the embankments to the west of the city. Large forces of men are at work, however, topping the levee and United States engineers in charge of the work declare no immediate danger exists. This levee, which protects the Reelfoot basin, collapsed last year.

The city levee, which serves as a protecting barrier for the low lying sections of Hickman, is still intact. Weather conditions tonight caused refugees housed in tents in the hills back of Hickman some discomfort. Of the 300 at the camp several are ill. Additional tents were expected to be sent to arrive, and as a result about seventy of the refugees are without shelter.

Colquitt Sends \$200.

Austin, Tex., April 3.—Governor Colquitt this morning wired to Governor Cox of Ohio and Governor Briston of Indiana \$200 for the benefit of the flood sufferers. This raises the total that has been forwarded through the governor's office to \$157,150. Contributions are still coming in, and it is expected that the \$2000 mark will be reached shortly.

MANY PAY MORGAN TRIBUTE

Special Train Carrying Body Arrives at Gare de Lyon in Paris.

Paris, April 3.—The special train bearing the body of J. P. Morgan, arrived at the Gare de Lyon in Paris at 11:30 o'clock tonight. It was met by the American ambassador, Myron T. Herrick, the secretary of the embassy, R. W. Bliss, Mrs. J. H. Harjos, Gabriel Jaray, secretary of the Franco-American committee, Junius George Morgan, a nephew, and Jacques Zeligman.

The funeral car was opened and wreaths were placed on the coffin by the ambassador, Mrs. Harjos, M. Jaray, for the Franco-American committee, and others. The train left at midnight for the Batignolles, where it was switched to the Havre line.

IN CHAMBER OF COMMERCE.

Members Hold Memorial Meeting in Morgans' Honor.

New York, April 3.—The New York Chamber of Commerce, of which Mr. Morgan was for fifty years a member and for four terms its vice president, held a memorial meeting today in his honor. The chamber adopted a resolution placing on its records "sentiments of deep reverence for the memory of John Pierpont Morgan, man of character," and its "enduring appreciation of the dominant force for good

New York, April 3.—The New York Chamber of Commerce, of which Mr. Morgan was for fifty years a member and for four terms its vice president, held a memorial meeting today in his honor. The chamber adopted a resolution placing on its records "sentiments of deep reverence for the memory of John Pierpont Morgan, man of character," and its "enduring appreciation of the dominant force for good

which he wielded through a long life of masterful endeavor and far-reaching accomplishments." Eulogistic addresses were delivered by John Claflin, president of the chamber; Senator Elihu Root, Joseph H. Choate, Robert W. DeForest, Seth Low and Frank A. Vanderlip.

Every seat in the great meeting room of the chamber was taken, and many were compelled to stand. Every important financial institution of the city, as well as every important mercantile house, was represented.

OPPOSE LUXURIES.

Asks Receivers to be Appointed for Lead Company.

New York, April 3.—Hunting trips, private cars, palatial residences and

ornate office buildings are luxuries which directors of the St. Joseph Lead company, a \$20,000,000 corporation, enjoyed at the stockholders' expense in the course of an alleged mismanagement of the company's affairs, according to the plaintiffs in a suit filed in the supreme court today asking for an accounting of all funds, together with restitution if the stockholders' charges are warranted.

The St. Joseph Lead company is declared in the court action to be one of the biggest lead corporations in the country. John A. Belle R. John H. and Mary B. Holmes and Florence Holmes Woodruff, holders of about \$500,000 worth of stock, are the plaintiffs. They are residents of St. Louis.

KATE FRIEND, Editor

SOCIETY'S CALENDAR FOR THIS FRIDAY

Mrs. Frank Forman is hostess to the Art League in courtesy to Mrs. Jean Sherwood of Chicago.

Mrs. W. W. Seley entertains the Friday bridge club.

Mrs. Jean Sherwood gives stereopticon lecture under auspices of Jean Sherwood Mothers' club at library both afternoon and evening.

Mrs. Philip Snowden lectures at Carroll chapel.

The Number Two society meets in regular session.

The Austin Avenue Methodist Missionary meets in regular session.

Mrs. H. C. Wingo entertains with card matinee for Mrs. Loretta Kasse Reeves.

Mrs. Paul Yates has informal afternoon.

THE DOMESTIC SCIENCE WITH MRS. M. D. BAKER

Only the accustomed meet, spend the afternoon, enjoy refreshments and entertainers, characterized the session of the Domestic Science with Mrs. M. D. Baker. The next afternoon will be spent with Mrs. Albert Hoggess.

THE VIOLET WHIST MEETS WITH MRS. HARRY SACHS

As with Mrs. Louis Lipsitz joint hostess, Mrs. Harry Sachs entertained the Violet Whist on Wednesday afternoon. The next hostess will be the Mesdames Maurice Landman and Abe Frank. For the game of Wednesday there were no guest tables. The prizes were taken by Mrs. Jack Sanger and Miss Nettie Haber.

THE MERRY MATRONS SEW WITH MRS. H. J. FURMAN

In their round of Wednesday afternoon meetings, the Merry Matrons took their sewing to spend the last with Mrs. H. J. Furman. The usual pleasant hour with fancy work, chatting, reading by one member and the refreshment from the hostess filled the afternoon. The next hostess is Mrs. R. V. McClain.

STATE FOLK LORE SOCIETY MEETS IN AUSTIN

This week will find those who are promoters of folk lore for Texas in session at Austin. Waco representative will be Miss Dorothy Scarborough from Baylor University, who made a paper upon the local Indian folk lore. With her return Miss Scarborough will have opportunity to introduce one of the leading folklorists of this country, Professor Kittredge, who will lecture at Baylor University.

WEDDING INVITATIONS COME FROM NAVASOTA

On Thursday cards reached this city bearing the pleasurable interest that Miss Grace Lewis, daughter of Reverend and Mrs. J. M. Lewis, for so long residents of this city, would become the bride of Mr. Russell. This will be a high noon wedding at Navasota, where the family now resides. The permanent home will be in El Paso. This bride to be has many childhood friends in Waco to extend the usual hearty good wishes for wedded happiness.

MRS. CAMILLE FRANKLIN HOSTESS TO CARD CLUB

The game of the Young Married Ladies Euchre club for this week found Mrs. Camille Franklin the hostess. Nothing beyond the accustomed full of euchre was observed except that Mrs. Franklin had invited Miss DuBois with the Mesdames John Marshall, John Sleeper and Clarence Hubby to play the substitute hands. The prizes were won by the Mesdames J. E. Allison and Sam Stratton. Mrs. W. W. Seley will be the next hostess.

MRS. FRANK FORMAN HAS ART LEAGUE AND GUESTS

Taking advantage of the pleasure in hearing Mrs. Jean Sherwood again, Mrs. Frank Forman is hostess for the April session of the Art League this morning. The hour is half after 10 o'clock. In addition to the members of the league, all of whom Mrs. Forman expects, several will be present by special invitation. Mrs. Sherwood will be greeted as a friend, and listened to as the apostle to Waco to preach upon the new art movement, the cubist-futurist-post impressionist, about which everybody is now talking and writing. Miss Tracy of Chicago who accompanies Mrs. Sherwood will be introduced.

MRS. LEONARD STONE FOR MISS LOLLIE HALE

As one of the last afternoons with the friends in her girlhood days, Mrs. Leonard Stone selected a dozen or two from among the nearest in friendship circle to spend an hour with Miss Lollie Hale. On April eighth, Mrs. Hale assumes the dignity of young matronhood. This hour with Mrs. Stone found the girls out with their embroidered bags, their small talk, some musical numbers, some impromptu readings and a general jollity about the refreshment plate. It goes without saying that Miss Hale was the center in attraction as well as of pleasurable curiosity over her wedding plans.

MISS IMOGEN GAMILL RECEIVES TOKEN

In her recent trip to Rosebud, Miss Imogen Gamill was accorded a very hearty reception. She went down at the invitation of the cemetery society who was patron of a benefit concert. Miss Gamill was the reader. She appeared three times, and at each was applauded to the echo. In recognition of appreciation, in addition to the many compliments, a presentation lap pin was given Miss Gamill, a token of appreciation both of her ability as a reader and for her having taken the time and spanned the distance to add this feature to the program at Rosebud.

COURTESY TO MRS. ARCHER FROM MRS. W. O. WILKES

Among the many social events of Wednesday, one found Mrs. W. O. Wilkes paying social courtesy to the visit of Mrs. Stevenson Archer from Baltimore. In her girlhood days, Mrs. Archer spent much of her time in Waco. Since her marriage and removal to Baltimore, she has made frequent return visits, so that the friendship and the family tie have never been broken. Mrs. W. O. Wilkes afforded old friends and some new ones the pleasure of an afternoon with Mrs. Archer in her home. This was in quite an informal way, but one which proved altogether acceptable to the hostess, her honoree, and her guests.

SPECIAL ROUND TABLE WITH MRS. J. G. KENDALL

Holding their adjourned meeting last week, the Round Table had an especially pleasant session with Mrs. Margaret Kendall and Mrs. J. G. Kendall who is the only associate honorary member. This was for the annual election of officers and the program upon the men of Indiana who are making literary history. The Round Table through this year has reviewed the literary men of this hour, according to sections of the United States. A committee is now appointed to arrange for a coming year's study. The result of the election places as president, Mrs. J. B. Johnson, as vice president, Mrs. Snowden. The refreshment was in keeping with the celebration. In all Mr. and Mrs. Turner have much to please in the celebration of their twenty-fifth wedding anniversary, while their friends have a social indebtedness for a delightful evening.

THE JEWISH COUNCIL MEETS FOR STUDY CLUB

In furthering the study of the Jewish Council it is one feature to pursue organized study. For this reason, Mrs. Abe Frank, president of the council, called a meeting especially for the purpose of arranging for this study session in the homes of the members. Mrs. Isaac Simmons offered her home for the first meeting, which will be on alternate Friday afternoons. Mrs. Samuel Toomim was made chairman of the Circle and Miss Goldie Hart secretary. The Mesdames Abe Frank and Dave Landman with Miss Lena Adelman were appointed to arrange the course to be taken up. For the meeting with Mrs. Simmons there will be:

In the Jewish world.

Parliamentary drill, conducted by Miss Florence Hirschberg.

Exodus and the Passover Ceremony—Mrs. Toomim.

Music, Mrs. Harry Sachs.

WELCOME TO MRS. SHERWOOD FROM THE MOTHERS CLUB

Upon the eve of her annual engagement in this city, the Jean Sherwood Mothers' club formally welcomed the return of the patron of their school, Mrs. Jean Sherwood of Chicago. Miss Tracy is with Mrs. Sherwood this season in her Texas visit and the pleasure of meeting her was also enjoyed. This took place in the parlors of the library where Mrs. Sherwood had hung with the most beautiful collection of pictures she has yet brought to Waco. Rugs spread and blossoms set, with a tea service in readiness was the special provision for this hour. Both Mrs. Sherwood and Miss Tracy in an informal way, spoke about the pictures which interested all. Mrs. Sherwood met many old friends and was introduced to many new. On Thursday afternoon, the children of the city were invited to see the pictures, to hear what Mrs. Sherwood had to tell them concerning them, and to cast their vote for one of the schools which shall receive one of the pictures for permanent hanging.

Tonight Mrs. Sherwood opens her course of stereopticon talks on England, her scenes, her cathedrals and her highways.

SILVER WEDDING GUESTS IN W. A. TURNER HOME

There is ever something beyond the ordinary interesting when it is known that a wedding anniversary is to be celebrated. When it becomes the quarter of a century milestone, that interest is deepened. The last silver wedding recognized was that of Mr. and Mrs. W. Alex. Turner of North Fifteenth. Their formal welcoming and entertaining friends all bore upon the silver and the sentimental theme, and yet sufficient of the informal prevailed to give the evening a decidedly jolly flavor. Several relatives, including the son from Houston, came to be participants. The entire home was hung with the silver wedding bell and the rope of silver. The flowers were the fragrant carnations. Other than these the hyacinth drop to the largest bells was seen. The guests were received by Miss Alice Turner, the daughter of the home, and presented each a half of a silver bell by the little Misses Crosshwaite and Lunsford. Later it was found that these were to match partners for a "well" contest in which Robert Lunsford was the winner. Sentiments and

Beautiful English Woman on Texas Tour for Suffragettes

MRS. PHILIP SNOWDEN

Mrs. Philip Snowden, wife of the Labor leader in Parliament will speak at Carroll Chapel tonight on Woman Suffrage.

Mrs. Snowden is a conservative. She does not endorse the militant methods of the women of England, but believes in arguments to win that for which the women are striving.

Mrs. Snowden will arrive this afternoon from Austin, where she spoke last night. She will speak at Carroll chapel at 8:30 o'clock, and the lecture will be free. It is made possible by the voluntary contributions of some of the women of Waco. Dr. Samuel Palmer Brooks will introduce the

good wishes were written and left as souvenirs for the host and hostess. About fifty guests enjoyed the personal word with others from far and near. Mrs. Snowden, who has some silver gifts and good wishes. The handsomest piece was a silver tea service which was sent by the office associates of Mr. Turner from Saint Louis. The victrola gave enlivening music also Mrs. Hally rendered piano numbers. The refreshment features was in keeping with the celebration. In all Mr. and Mrs. Turner have much to please in the celebration of their twenty-fifth wedding anniversary, while their friends have a social indebtedness for a delightful evening.

holding their first suffrage convention, down in San Antonio. And not a Waco woman is entitled a seat.

Women watch for the placards in the street cars which read, "Thou shalt not spit," and then watch the streets in order that she could let the Waco people know how fine a speaker they are to hear.

There will be a delegation from Temple tonight to attend the speaking here.

Keep fresh flowers in your rooms, especially your living room. It adds beauty, fragrance, restfulness and the air of refinement to your home.

Have you ordered your groceries early this morning? If so, you have saved some poor delivery mule a lash and you are making a turkey of yourself, and that turkey are absolutely senseless birds.

Some of these days the query will be put, Why do you pay so much attention to dress? The various answers will be brimful of interest.

Mrs. W. E. Spell, who attended the meeting at San Antonio and heard Mrs. Snowden speak Wednesday night, returned yesterday afternoon very much enthralled. She says it was the grandest address she has ever heard, and although she wanted to accompany the English woman to Austin and again hear her address, she hurried home to spread the news of the coming in order that she could let the Waco people know how fine a speaker they are to hear.

The Gold Dust Twins' Philosophy

NOW you have often said—"Oh dear, I dread when eating time comes near. It's not so much the cooking, grub, but cleaning after,"—there's the "rub." Each kitchen holds a mass of work, no tidy little wife should shirk.

Gold Dust vs. Kitchen Worry

The kitchen floor, the kitchen sink, the kitchen pots as black as ink, the kitchen kettles and the pans, the silver, glass and cups and cans; wherever you may look, the toil means more than any kettles boil. To just "prepare" a meal is "fun," but work, with THAT is scarce "begun."

If those who stay up days and nights to win the cause of "Women's Rights" would only vote the GOLD DUST PLAN they soon would have the best of man.

More time for comfort and for smiles; more time to play a woman's wiles, for once the GOLD DUST TWINS appear, Hard Labor's cry you never hear; frail woman is a queenly soul who plays the "Take-it-Easy" role. Each GOLD DUST package sets her free by bearing out its guarantee, and never more those household woes that every weary woman knows. Pile up the dishes as you will, the GOLD DUST TWINS will clean 'em still. Old floors and woodwork sinks and pans, turn out as Master Cleaner Plans. From sun to sun, and chore to chore, your tasks will fret you nevermore.

The Gold Dust Twins Make the Whole World Brighter

will clean 'em still. Old floors and woodwork sinks and pans, turn out as Master Cleaner Plans. From sun to sun, and chore to chore, your tasks will fret you nevermore.

Mrs. Thomas Joseph of Houston is the guest of her sister, Mrs. Zim Hunt, Fifteenth and Morrow.

Mrs. James B. Baker of Ninth and Columbus is with her sister, Mrs. G. H. Mensing in Galveston.

The Mesdames Eason of Fort Worth and Castello of Mount Pleasant, who came to participate in the Turner wedding anniversary, reached their respective homes on Thursday.

Mrs. Frank Litten, who has lingered from the Sunday school convention for a few days with Mrs. W. R. Clifton, is leaving for her home in Austin today.

Mrs. Badger, who came with her returning home by way of McGregor.

Among the recent arrivals from Dallas is that of Mrs. A. Silvers, who is now at home on North Fifth.

Mrs. Sol Gordon has returned home to Beaumont after a few days with her parents, Mr. and Mrs. Herman Mayer, on Austin avenue.

Miss Elizabeth Cook of Franklin street is spending the week end in Taylor.

Miss Dorothy Scarborough of the South Side is leaving today for Austin, to attend the Folk Lore session.

Mrs. Farwell of Minnesota, the winter guest of Mrs. W. J. Lincoln on West Washington, is having a week end visit in Lorena.

Mrs. W. E. Spell of Washington street, with her guest, Miss Helen Rounds, is due from San Antonio this afternoon.

Mrs. Felder from Dallas is the early expected guest of Mrs. J. R. Milam, Twelfth and Jefferson.

Among the most recent departures is that of Mrs. E. A. Temple who has returned home to Amarillo.

Among the Thursday departures was that of Miss Kate Norwood of Navasota, who has been with Mrs. Max Rousch on North Fifth for several weeks.

Apache Indians Free Men.
Lawton, Okla., April 3.—The Apache Indians who have been maintained on the Fort Sill military reservation for nineteen years as prisoners of war, left for the Mesquero Apache reservation in New Mexico, where they will be turned over to the care of the interior department. See men. Major W. Good, accompanied them.

Five Frenchmen Drowned.
Toulon, France, April 3.—Two French naval officers, Lieutenant Achille Lavabre and Ensign Louis Adam, and three petty officers were swept from the deck of the submarine Turquoise and drowned while engaged in maneuvers in the Mediterranean early today. The bodies were recovered and brought to port.

The Morning News should be delivered throughout the City of Waco by 6.30 a. m., and subscribers failing to receive the paper at this time will confer a favor by phoning the circulation department, both phones 1132, and a copy will be sent out by special messenger. Sunday papers should be delivered by 7 a. m.

SLIGHTED.

The unprecedented refusal of the Texas house of representatives to adopt at its last feeble and lingering gasp the customary resolution thanking the representatives of the press serving time throughout the session for their (as usual) "courteous, faithful and high-minded work" will cause editors and correspondents many a sleepless night. Almost as sleepless as the nights they spent writing and editing the matter responsible for this sad plight. So many editorial encomiums were destroyed, we know; almost as many as were expected and so few given, relatively! So many measures advocated by Texas press for the state's weal were enacted. The legislature was so diligent, fine spirited and nobly purposed, and each of these splendid attributes was so glowingly emphasized in dispatches and leaders. The session was ignorant of factional politics and division wrangling, personal prestige and glory who wholly removed from the minds of our statesmen. Every bill was considered on its merits, regardless of the author's personality and political alignment. There was no eleventh hour rush of legislation to the governor, shifting the responsibility for its appearance in the statute books. The low branch was so unusually and disinterestedly "representative." All these meritorious conditions and the invaluable results thereof to the progress and betterment of Texas were diligently reported, and praised in every sanctum. And at the last the house refused its commendation to its chroniclers and immortalizers. Is Texas press losing its power, its strength and its popularity and its desirability in the opinion of the state's greatest minds at Austin? The house and the press—it was a sad separation, truly, after eighty days of common suffering. But there is a little balm in Gilead, after all. What the house thought of the press wasn't a circumstance to what the press thought of the house.

The chaplain of the Arizona senate prays that the Almighty "ebasten" the newspaper men for stirring up strife between the senate and house and the Texas house refuses to commend the scribblers for the heroism of their long sojourn in a gas oven. What a beautiful bunch is ours!

Every newspaper poet has written a sonnet concerning high cost of his wife's Easter bonnet.—Allentown Democrat.

Every energetic newspaper poet can write five hundred sonnets to one check—for the same.

The Houston Post mirthmaker says the only way to make an impression on a Boston girl is to use an ice pick. The scope of his information on such matters is frequently as astonishing as it is inaccurate.

Our idea of hearsay evidence is the declaration of a Minnesota college professor that there is no money trust and the special articles of newspaper writers on the inequities of the income tax.

Where there is no expectation there can be no disappointment. We are merely sorrowful that the city fathers consider street corners a proper summer resort for the loafers.

The cause of compulsory education need not worry because Blaine vetoed the bill in South Carolina. Education endures, and Cole's days of power are numbered.

The invention of a "snake car" for winding and narrow streets will not interest our capital city whose one lane has no turning.

What has happened to Mr. Wilson's pre-inauguration promise of an "open office" in the white house?

UNLUCKY MR. TERRELL.

At the close of its regular session, Tuesday, those gentlemen who constitute the "house below" in the Thirty-third legislature presented their presiding officer, Mr. Chester H. Terrell of San Antonio, with a gold watch as a token of their regard. Replying to the presentation speech, Mr. Terrell said he felt that Governor Colquitt's recent criticism of the legislature should not remain unanswered, and he proceeded to "sass back" at the governor. Mr. Terrell's words "were received with marked demonstration," according to one Austin report, and forthwith the announcement was made by some of his friends that he would be a candidate for governor next year.

If it is true that Mr. Terrell intends to try for the governorship his choice of an issue on which to base his candidacy was unfortunate, for the record of the Thirty-third legislature, as made to date, will furnish but insecure ground to stand on. Mr. Colquitt may have been a little too severe in some respects in his Good Friday message, but it will be noticed about all the legislation worth while that has been enacted was pushed to a finality after that message was received. And it is a fact that in spite of the message the legislature adjourned without providing for the state's educational institutions, both high and normal, as the state democratic platform urged; and without taking a telling step in the direction of court reform. By neglecting to take action in these and other equally important respects, the legislature more than nullified what good it did in other directions.

Mr. Terrell "came back at" the governor in the matter of the Katy consolidation bill by calling attention to the fact that while a member of the senate Mr. Colquitt had supported the Houston and Texas Central consolidation measure. While we do not agree with the governor in his position on the Katy bill, we are well aware, as Mr. Terrell should be, that it was in no sense similar to the Houston and Texas Central merger, for which Mr. Colquitt voted. It would have been better for Mr. Terrell had he remained silent on that theme, than to approach it in the manner he did. The reason the Katy bill should have been allowed to become law surely is to be found elsewhere than in the record of Mr. Colquitt's legislative voting.

Mr. Terrell charged that the governor has been inconsistent in his position on the "home rule" bill because he champions local option insofar as it relates to the liquor traffic and opposes the initiative, referendum and recall as a general proposition. But the fact is the governor was twice elected in the face of heated and resourceful opposition after having told the people just where he stands on these questions from every stump in the state. Every speech he made in both his campaigns was punctuated with a clear, unmistakable declaration of his devotion to local option and his uncompromising opposition to the initiative, referendum and recall. It must be plain, then, even to Mr. Terrell, that the governor's position on these subjects is approved by a majority of the voters, since they voted him into his present position with full knowledge of his views thereon.

Mr. Terrell was unlucky in that he was unable to push through a congressional redistricting bill that would furnish him with an opportunity to get to Washington. And, we think he was equally unfortunate in his selection of an excuse for launching a gubernatorial boom in his own behalf.

Another thing on which the transient patriots in Washington are not in accord with the president; they return no gifts.

HAS OUR HEALTH BOARD A REASON.

The Morning News awaited no request from the State Health Board to take up the nation-wide movement in behalf of accurate reporting and recording by city and state health authorities of communities' vital statistics, in line with the recent emphasis placed on the fact that of 1,500,000 people who die in the United States every year, 630,000 perish from preventable diseases. From time to time, during the three months past, this newspaper has had a deal to say concerning health conditions in Waco and the method at Austin of checking, and dealing with, epidemics and the preventable spread of contagious diseases resulting from unsanitary conditions in Texas communities. Lately considerable stress was laid in these columns on the findings of the Association of Life Insurance Presidents' experts to the effect that these "almost incredible" figures of death annually from preventable diseases were the result, in part, of gross carelessness of public authorities, and partly the result of a woeful lack of a proper spirit among the people themselves. From time to time we have directed inquiries to the local

health board as to the reason it permitted certain dirty, unsanitary conditions to obtain in Waco, especially the fly-breeding, germ-breeding condition of certain alleys and the ignoring of the anti-spitting regulations. Readers of The Morning News, who have their eyes wide open to conditions in this city insofar as concerns the duty of public authority to remedy dangerous public evils, can judge for themselves how much our protests have availed.

Most unexpectedly, an editorial that appeared in these columns some weeks ago has drawn the attention of the state registrar of vital statistics at Austin to the fact that The Morning News was giving much heed to the general need of enforcing the vital statistics registration statute in Texas. We say "most unexpectedly," and if one will read the communication printed today on this page, from Registrar Babcock, the reason for our surprise will be painfully apparent. It has not been our custom to generalize when local conditions were in need of public attention—but it appears we have been doing exactly this in the matter of urging respect of the necessity that underlies the vital statistics registration law. While we were commenting that "the worst difficulty in the way of combating this increase in deaths from preventable diseases comes from the lamentably incomplete registration of diseases and death, making it impossible to detect general causes promptly and remove them," we were unaware that the city of Waco supplied a significant illustration of our view.

If the state registrar's report of the condition of his records as regards Waco's registration of births and deaths is accurate—and we see no reason to doubt this—the authorities of Waco have something to answer for to the citizenship. Mr. Babcock writes that for eight months last year the health authorities of this city made no vital statistics report to his office, and that there has been some repetition of such neglect since January 1. We earnestly urge Wacoans to read his letter, not only for the information it gives as to local ignoring of the statute, but for his explanation of the imperative necessity of vital statistics—a matter we have iterated time and again.

In all fairness to the city to which they are responsible, the members and the registrar of Waco's health board should let it be known whether Mr. Babcock has put the situation as it actually exists, and if he has, what is the reason for failure to comply with this all-essential statute. We sincerely believe this city should be as jealous of its reputation as a government that complies with the law of its state as of its reputation for fair dealing in business and its reputation for determination to progress.

What is the answer to the state registrar's statement, gentlemen of the city government? Is the city of Waco so well protected against the possibility of disease that it can afford to ignore the possible need of co-operation by state health authorities? Is this another instance of that self-sufficiency the preaching of which for twenty years the progressive citizenship of Waco is now trying so hard to overcome?

CENSUS RACE STATISTICS.

Mr. E. Dana Durand, director of the census, read an important paper before a recent meeting of the Anthropological Society of Washington on "Race Statistics of the Last Census." As reported in Science, Mr. Dana said that during the decade 1900-1910 the white population of the United States increased about 22 per cent, and the negro about 11 per cent. The difference is partly due, however, to the direct or indirect effect of immigration of whites, in the absence of which the whites would have increased about 14 per cent. The Indians increased about 12 per cent, the Chinese decreased in number and the Japanese nearly tripled. The whites have at practically every census shown a more rapid rate of increase than the negroes, and there is reason to believe the difference between the two races in rate of increase from 1890 to 1900 was greater than appeared from the census returns, on account of a probable under-enumeration of the negroes in 1890. The census of 1910 showed that about 21 per cent of the negroes are mulattoes, as compared with about 12 per cent in 1870, the last preceding census at which the question regarding blood mixture was asked in comparable form. There has been no great migration of negroes out of the south, nearly nine-tenths of the total number being still found in that section. The number living outside the south increased 167,000 between 1890 and 1910, and the number residing in the south increased over 800,000. The rate of natural increase—that is, by excess of birth over deaths—of the white population of the south, however, is much higher than that of the negroes, being higher also than that of the whites in the north.

Texas Viewpoints

The Right Emphasis.

The anti-saloon league objects to penalizing buyers of liquor in prohibition districts. It is claimed that this would make the business of bootlegging safe, for the reason that the buyer would not then be able to turn in the bootleggers. While we have no statistics at hand, we venture the assertion that a very large per cent of cases where the men who buy the liquor run to the sheriffs' office and tell where they got their liquor. And in many cases, were the truth revealed, it would be demonstrated that grand juries have a hard time getting this information out of purchasers. We have never been very strong for the proposition to send a man to the penitentiary for selling half a pint of whiskey, especially on the first offense, and believe that in the Waco disorderly house law that the state has passed, that has been written in the law books of the state for the prevention of the selling of whiskey. If there were a law on this line, which punished the buyer as well as the seller of liquor in prohibition districts, coupled with the law against shipping whiskey into dry territory, we believe there would be a better enforcement of the law than there now is.—Sherman Democrat.

Coming from a newspaper in the very heart of the North Texas prohibition sentiment district, where local option is the rule; a newspaper that long has advocated the extension of prohibition and strict enforcement of local option regulations within the bounds of commonsense treatment of each offense, that comment is of especial interest, as it is of sense. The refusal of the prohibition division of the legislature to accept the governor's suggestion that buying as well as selling, liquor in dry territory be made illicit and be penalized, on the ground that such a regulation would block enforcement of the law by compelling buyers to conceal the fact of purchase, was a singularly weak attitude. As The Democrat points out, it is but a minute proportion of convictions under local option law that is obtained by the testimony of the private buyer of liquor. Evidence is obtained through witnesses at the service of officers, who spy on the bootlegger and watch the sale to the officals' hiring or confederate, in a vast majority of cases. We have said before that in our judgment the governor proposed a plan that would have resulted in rendering far more difficult the illicit sale of liquor in Texas, and the rejection to this plan by those most concerned by their own declarations, at least in strict enforcement of prohibition regulations must detract from the sincerity of their motives and service in the opinion of every citizen who is at all acquainted with the conditions obtaining in dry districts. The "reason" for that rejection was an absurdity.

A Safe "Feature."

Some newspapers publish a Bible verse every day. No doubt it is fresh news to a great many of their readers.—Palestine Record.

Fresh to a great many, refreshing (we hope, surely) to quite as many, and "old news, but good" to more. Thoroughly safe, conservative, harmonious under the Texas libel law and the postal regulations and apt to disgruntle only the most confirmed scoffer, skeptic and chronic fault-finder. An editorial "policy" that loses no subscribers and cannot possibly be repudiated by popular action.

The Inspired Composer.

"The esteemed exchange which we will not call by name," grins the searchlight exchange editor of the San Antonio Express—"the esteemed exchange," in describing some Eastern attractions, remarked that the "widow displays were especially admired," has probably fired the composer who left the letter "n" out of the word "window." We sincerely hope not. We love the inspired composer, realizing as we do that nor angels nor wizards can protect us from his inspiration. Even The Express, strange as it may seem, is sometimes in point of humor the beneficiary of his imagination and superior knowledge of what the editor has dealt with, and of his divination of what the editor should have written, but didn't. Don't fire the inspired composer. Was the truth he told. Widow displays are especially admired in every healthy-minded society and supply the chief source of come-back material to our Texas brethren whose first recourse is the paragraph column of the Houston Post.

Pretense and Performance.

It is a significant fact that latterly we seldom hear the expression "courts of justice," but only tribunals are spoken of as "courts of law." This is a recognition of the truth that juries often get more law than justice, and this is why there is such a general and insistent demand for judicial reform. With the people recognize the existence of an evil, they generally find a remedy for it.—East Texas Register (Carthage).

Litigants as frequently get very little either of law or of justice. The demand that the rule of "substantial justice" replace in Texas the archaic adherence strictly to technical procedure, at the expense and to the delay of the realization by the aggrieved party of his rights has made some

head, but the delays in litigation still are too numerous, still too much the fault of the bench in exercising unwarranted leniency with the dilatory tactics of the bar. Jest and fling at the actual differences between law and justice still are warranted by the disposition of many causes, but the "temple of justice" remains in substance unchanged and the world must make the best of it till such time as the servitors in the temple are fully awake to the need of fulfilling their mission. Meanwhile, no courthouse structure is considered complete without an occasional figure of the blindfolded lady with sword and scales adorning the arch!

We Don't Mean the Same Thing.

When the Katy is operating into Velasco we will be but two hours run from Houston.—Velasco World.

How fortunate for Velasco.—Houston Post.

Nature's Errors.

The great rhinoceros, we find, should never have been born attached to a handkerchief, which he is wherewith to blow his horn.—Dallas News Winklerwad.

And elephantine methods of obtaining drink and food. Convince us that a tray within the trunk would do some good.

NO STATISTICS IN WACO

State Registrar of Vital Statistics Complain of Lack of Records.

Austin, Texas, March 31. To the Waco Morning News:

Permit me to thank you for the timely editorial in your issue of March 16. One of the most important and world wide movements of the present day is the concerted attack on uncleanness and disease. This war can not be waged successfully in any community without the aid of official statistics. The point can not be too strongly emphasized: Vital statistics are the greatest preventive medicine known, and the greatest value for the prolongation of human life.

The matter of vital statistics is not a doctor's problem, as many seem to think. As a matter of fact, it is not only a public health problem, but it is a great social problem, vitally important to all classes of persons. It is a uniform and practical bookkeeping of the lives and deaths of the people as essential to an intelligent government and the sound conduct of the people's business.

The city of Waco has been very negligent of its birth and death bookkeeping. Records in this department show that during the year 1912 there were absolutely no returns of births and deaths made to us from Waco in the months of April, May, June, August, September, October, November, and December. In July a partial report was made. This year, 1913, there was a fair report made in January; nothing received in February, and this month (March) on the 26th a report came in—nineteen days late, too late, in fact, to be included in the state report for this month.

The law specifically states that: "On or before the tenth of each month all original certificates of births and deaths for the previous month are to be forwarded to the state registrar of vital statistics at Austin, Texas."

I respectfully ask, why this neglect? How can it be accounted for, this striking neglect of a matter so essential to public welfare? The proposition of vital statistics is not a technical or intricate one. It is essentially practical and carries conviction of its practicability to every citizen who gives it any attention.

Each month (about the 15th) I have written your city registrar, reminding him of the fact that his report had not been received, asking that same be forwarded to us at once—I have stated the result in the first part of my letter.

I am writing you this in full, in reply to the editorial above mentioned, and permission to publish is granted, if you so desire, in the hope that greater interest may be taken by the people of your city in this very important matter.

Yours very truly,
R. P. BABCOCK,
State Registrar of Vital Statistics.

\$50,000 PRIZE ATTRACTING.

Aero Club of America Thinks Well of Offer.

New York, April 3.—The London Daily Mail's offer of \$50,000 for the first trans-Atlantic flight was given hearty endorsement by the Aero club of America at a meeting of the board of governors yesterday.

"Crossing the Atlantic in an airship now is only a question of time and the offer will do much to shorten that time," said Allen R. Hawley, president of the club. "Flights are being made daily, which show the aero-plane's ability to stay in the air for longer and longer periods and there is no reason why the flight should not be made over the ocean instead of over a marked track."

Members of the club were optimistic in the prospects of an early fulfillment of the conditions of the offer. Some even predicted that the flight would be within the year.

Notice to Water Consumers.
Water rents for the April quarter are now due and payable at the office of the Waco City Waterworks in the city hall. Fifteen days from now first are allowed in which to pay. Please come in before the last day and avoid the rush. After the 15th remember the penalty.

Cemetery water rents for the year are also due.
WACO CITY WATERWORKS.
Sixteen Months Old Child Drowned. Gore, Tex., April 3.—The sixteen months old son of Henry Bowman of Routon City, drowned in six inches of water in a tub Wednesday, J. L. Gore, 65 years old, fell on a maize stack Friday and died from his injuries.

WATER METER SYSTEM

By James Hays Quarles.

Since the Waco Morning News has been agitating the installation of water meters in this city, there has been more or less discussion of the question, some being fearful that they will pay an advanced rate for water if it measured by the drop.

But experience has taught that where water is sold by the meter system, that rates are reduced, less water is required for the consumers because there is little waste, and the maintenance expenses of the plant are reduced. The appeal that is made that there should be enough water for everybody, is all right, and there should be, but there are times year in and year out when there is not enough water, if some of the consumers choose to waste it. Under the flat rate system in Waco, water is sold by measure just the same, but they guess at the measure in three instances.

They measure the yard with a tape line and guess how much water will be used in sprinkling on 100 square feet and charge 24 cents a year for that as a basis.

They find out how many there are in the family, how many taps on the premises, whether there is a laundry and live stock to be supplied, and guess how much will be used, and charge accordingly to the guess.

The third guess is whether the plumbing will leak, or whether it won't, and they do not get any revenue from the leak.

The meter system is not a guess work. The evils of flat rates are not intended to be supplied, the product of a defective method of circulation. The argument made is that water should be as free as air.

It is if you go to the Brazos with your bucket, or to the spring with your cup. But if you send a hired man to bring it to you in the bucket or cup, you pay him for the time he requires to make the trip and the labor he gives in carrying it to you.

The water department of the city set it out of the Brazos free, but after they get it, they must exercise the expensive equipment to lift it to your bath room, your toilet, your barn and to your lawn.

The water is free that runs in the streets underlying the city, but it costs something to sink the hole to the strata, costs something to lift it out of the hole and put it in the home of the consumer.

The water department must therefore get something for the service it renders. The mains cannot be kept up, the plant cannot be sustained, the mains laid and the labor employed. I was in Fort Worth when the meter system was first proposed and I opposed it. Good citizens were on both sides of the question, but the people who advocated meter water, and they were installed on every service pipe in the city. The result was that leaks were found which had been wasting the water supply for years. There was less water required daily to supply the same number of consumers and water rates went on a more equitable basis.

I find the following in the Waco Tribune this week:

It will not be possible, we apprehend, to give the people of Waco water at the cost of pumping the water, as our neighbor, the Waco Times-Herald, suggests. Pumping costs money, and the water itself costs money. The water charter revision committee is planning and hopes to institute some changes that should result in making water cheaper than now—unless the meter system steps in to make the change. Some visionaries, like Mr. Quarles, who is a practical and broad-gauged man, avers that meters will readily reduce the cost to the consumer. Colonel James Hays Quarles of the Waco News has up a superior vision of the theory. We hope both at. It is deplorable to see wanton waste of water or lack of equity in water service, but we have ever had (and have yet) wholesome apprehensions of the effects of the meter system in the supply of water for lawns, flowers and trees. The apprehension may be dissipated by the tests that will be made. Let us hope so, anyway. If it were possible we should be glad to see the city put meter water in every house in Waco. The effect would be truly beneficial.

I know that Colonel McCollum is willing to be educated, and I want to give him some figures.

Colonel McCollum has a two-story house at the corner of Eighteenth and Fort streets. His lot according to the black book of the city measures 100x165 feet. He has a nice lawn, keeps a horse and his family is of average size. His water charges under the flat rate system are \$11.45 per quarter, summer and winter alike, making the annual rate \$45.80. This is an average of \$3.80 per month. For \$3.80 per month, under the meter system rate of 30 cents per thousand gallons, Colonel McCollum could use 12,000 gallons of water a month.

Editor George Robinson of the Waco Times-Herald lives at the corner of Eleventh and Columbus streets. He has 100x165 feet. It is a nice lawn, with a new house and new plumbing. There will be no leakage there. Editor Robinson is not extravagant with the water used at his house, yet he is now paying \$8.05 a month, which will be \$32.20 per year. For \$32 a year he can use 10,000 gallons of water a month. And that is some water.

These examples are given of the flat rate, because Editor McCollum and Editor Robinson doubt the efficiency of the meter system. Suppose we pursue the individual cases further. Take for instance the N. K. Smith home at the corner of Fifteenth and Columbus streets. This property is 165x165 feet in size. It is one of the handsomest homes of Waco, with all modern appointments and every facility for using water inside and out. There is a garage, a lawn, etc. Mr. Smith formerly was on a flat rate and paid the city \$27.40 a quarter for the service. That means \$109.60 a year, which is an average of a little more than \$9 per month. Since Mr. Smith put in a meter at his home, his bill has been as much as \$9 per month but three times. Look at the figures:

June, 1911	\$ 5.96
July, 1911	12.52
June, 1912	5.05
July, 1912	11.60
August, 1912	11.60
September, 1912	4.50
October, 1912	7.10
November, 1912	6.50
December, 1912	5.30
January, 1913	4.80
February, 1913	2.00

This includes both winter and summer months, and it will be seen that the average is much below \$9 per month, which shows that the meter is

not an overcharge, and no one will say that the flowers and the lawn at the N. K. Smith home have been neglected.

I'll get a little closer home to Col. McCollum. I'll take the figures for one of his neighbors. J. D. Newton lives at 826 and 828 North Eighteenth street, within a few blocks of Col. McCollum. He has a home site 100x150 feet in size. When he was on the flat rate he paid the city \$36.00 per quarter for water service. He has had in a meter four months, and his charges during that time on the basis of charging for the water by the drop have been as follows:

November, 1912	\$1.00
December, 1912	1.45
January, 1913	1.25
February, 1913	1.00

Here is what we advocates of the meter system claim for it:

1. Prevents water waste.
2. Provides an adequate supply without requiring additional machinery, pumps, reservoirs, filters, mains, etc., in the face of an increasing demand.
3. Reduces operating expenses by lessening pumping, filtering, fuel consumption, labor, etc.
4. Detects un sound plumbing and prevents loss by leakage.
5. Determines exact consumption of each consumer.
6. Secures payment for all water delivered.
7. Prolongs life of the entire water works plant by preventing unnecessary operation.

USING THE PARCEL POST

One Concern Sent Out Three Hundred Pounds Through Waco Office.

Three hundred pounds of parcel post packages, mostly averaging from 4 to 5 pounds, were sent out at one time yesterday by a local jobbing house. Postmaster Hoffmann said yesterday there is a steady increase of the use of the parcel post, many shippers seeming to have just begun to realize its value. Some trouble is experienced by the postal clerks because of faulty wrapping, and also of the class of goods sent by parcel post. Ladies' millinery is sometimes sent, which is not properly wrapped to insure safety in transit. Mr. Hoffmann showed a News reporter a package containing a hat which had been packed in the flimsiest of cardboard boxes and had suffered as a consequence of the poor packing.

One Killed; Several Injured.
Pittsburg, April 3.—Charles Körner, a watchman, was killed; four policemen and six firemen were hurt and property valued at \$75,000 was destroyed when the plant of the Woods & Lloyd Co., manufacturers of glass house supplies, burned on the South Side today. The fire resulted from a gas explosion in one of the buildings.

BIG COTTON Convention DALLAS

April 28-May 1

Every man, concerned in the best interest of the Southland, owes it to himself to attend the big COTTON CONVENTION to be held in Dallas, April 28th to May 1st.

This will be a monster rally, attended by thousands of people in all walks of life, and from all parts of the South.

The convention will doubtless place prominently before the world the wonderful work being accomplished by the SOUTHERN STATES COTTON CORPORATION, in establishing a stable price for cotton, and a DEPENDABLE MARKET SYSTEM for the future.

The convention will be held at the Fair Park Coliseum, and aside from the advantages of a trip to Dallas, the broadening benefits derived by contact with leading men of the South concerned in cotton cannot be estimated.

Southern States Cotton Corporation DALLAS

Watch for the Day, April 7

POSITIVELY NOT A TRACT SOLD UNTIL THIS DAY

On Sunday, April 6, at exactly 3:30 p. m. we will christen our beautiful interurban tract, 4 miles out on Dallas Road. You owe it to yourself to send in a name for this beautiful tract that is to be sold in 1, 2, 5 and 10 acre tracts. Buy an acre equal to 4 city lots at \$45 per lot. If your selection of a name is the best one for this tract we will give you \$25 free of charge.

EXTRAORDINARY ANNOUNCEMENT—READ IT!

We were compelled to change the date to April the 7th, instead of April 5th, as was advertised last Sunday. **BE ON HAND SUNDAY AT 3:30 P. M.**

\$25.00 GIVEN AWAY FOR A NAME!

RAIN POSTPONES EXHIBITION GAME

BEST PITCHERS ON WACO AND SAN ANTONIO CLUBS WORK TODAY.

STINSON'S MEN LOOK GOOD

Contest Will Afford Opportunity for Fans to Get Line on Two Leading Teams.

Just or Platzke will pitch for Waco today against San Antonio, and either Crosby or Reilly will do the receiving. Manager Stinson of the Bronchos will send Dutch Browning against the Navigators. Browning wore a Waco uniform a few seasons ago, and is regarded the best pitcher retained by the San Antonio club.

The game between the San Antonio Bronchos and the Navigators had to be called off yesterday on account of wet grounds. The beating rain yesterday left the diamond in a condition unfit for a ball game.

Morris Block and his aggregation of ball players, with the exception of two pitchers he left at San Antonio, arrived here at noon from Sherman, where a game was played with the Sherman club in the Texas-Oklahoma league. The team immediately repaired at the Natatorium hotel, and no practice was indulged in during the afternoon.

The baseball magnate from the Alabama City is very enthusiastic over his prospects for the season. He has a number of the old pitchers in shape to go the entire route and has signed some very promising recruits. His infield will be about the same as last season, with the exception of First Baseman Metz, the leading stick of the league, but the outfield has been changed entirely. Manager Stinson will play center garden. Prantz and Crevens will likely care for the other two positions in the outfield.

The catching department of the Bronchos looks fairly good on paper, but does not compare with Carson, Reilly and Crosby, the latter a youngster who has a remarkable whip and who catches everything that comes in his reach. His only weakness lies in his inexperience and in his inability to hit.

The new manager of the Bronchos, Stinson, seems to have good control of his team and of the field, which will go a long way toward making a pennant winning aggregation. Stinson himself is a big fellow with lots of "pep and go." He endeavors to install the same life into his players.

The game today will give the fans a good opportunity to see the Navigators work against a club that is picked to finish as far up in the league standing as the Navigators. With Carson working all of his old men and the players who will very likely constitute the Waco club this season, and Stinson using a majority of the players he will keep on the payroll, the game should be a cracking good one from every standpoint.

The Navigators played out of form at Austin in both the games there with the Senators. Carson said his men made nine errors in the first game and too many to keep count of in the second contest. He said Helm should have won his game with little difficulty, but poor support gave the Senators a lead that was never overcome.

Pittsburg Nationals Win.

Fort Smith, Ark., April 3.—The Pittsburg Nationals, second team, defeated Arkansas University by a score of 3 to 2 on a water soaked field here today. Errors gave the recruits the game. Three of Arkansas' four hits were two-baggers.

Score—R. H. E. Pittsburg 010 020 000—3 4 2 Arkansas 000 000 200—2 4 5 Counselman and Simon; Hinton and Geren.

CITY LEAGUE MEETING TONIGHT

Schedule and Grounds Committee Will Report; Playing Schedule May Be Adopted.

There will be a meeting of the city league baseball organization tonight at the store of W. A. Holt, the president of the league. A schedule for the season will be submitted by the schedule committee and if satisfactory to all parties concerned it will be adopted.

The next important matter to be discussed will be the report of a ground committee. It has not been definitely decided where the games will be played, but likely Cotton Palace park will be used until the Baylor grounds are vacated. Coach Glaze of Baylor has given the league permission to use Carroll field after the winter term closes in May.

Boston Americans Win.

Champaign, Ill., April 3.—The Boston Americans were held to a 2 to 1 score today by the University of Illinois. Pitcher Larson struck out Manager Jake Stahl, of the world's champions.

Flagler Much Improved.

West Palm Beach, Fla., April 3.—Henry M. Flagler, who has been ill at his home here for several weeks, took nourishment today and his friends are hopeful for his recovery. His physicians are said to regard his condition as favorable.

Naps and New Orleans Tie.

New Orleans, April 3.—After making six scores each in twelve innings the Cleveland team of the American League and the New Orleans club of the Southern League called off the game here today. Cleveland made eight and New Orleans seven hits.

Detroit Team in Tie.

Chattanooga, Tenn., April 3.—The Detroit Americans and Chattanooga Southern League teams today played a tie game, ten innings, the score being 1 and 1. Covaleski pitched for Chattanooga and held Detroit to six hits. Willett was in the box for Detroit.

New League Opens May 6.

Indianapolis, April 3.—The newly organized Federal baseball league will open its season May 6 and close September 14, according to a schedule prepared by President John T. Powers. The schedule calls for 120 games, with the opening as follows: Indianapolis at Covington, Cleveland at Pittsburgh, Chicago at St. Louis.

Brooklyn Defeats Washington.

Washington, April 3.—The Brooklyn National league club defeated the Washington Americans in a slow game here today 6 to 2.

Kerr Defeats Travis.

Pinehurst, N. C., April 3.—Walter J. Travis, Garden City, was defeated by Hamilton K. Kerr, Ekwonok, Vermont, in today's second round of match play in the thirteenth annual United North and South Amateur Golf Championship tournament. Kerr tomorrow meets Walter Fairbanks, Denver, in the semi-finals. Fairbanks today won from C. L. Becker, Woodland.

Newcomb Wins Shooting Contest.

New York, April 3.—By breaking 175 out of 200 targets sprung from the Trappers Island traps today Charles H. Newcomb of the S. S. White Gun Club, Philadelphia, won the national amateur trap shooting championship from a field of 149 wing shots, representing the leading clubs in the United States. A stiff easterly cross wind blew over the traps all day.

Houston Wins Series.

Houston, April 3.—Houston's Texas League team won the odd game from the Trappers Island traps today. The locals beat Harry Smith by a 4 to 0 score.

Score—R. H. E.

Houston 000 020 02X—4 7 0 Lincoln 000 000 000—0 4 2 Malloy, Angell and Sallen; H. Smith and Baker.

MURPHY IS SENT BACK TO MINORS

BIG LEFT-HANDED PITCHER IS RELEASED TO SHERMAN CLUB.

WILDNESS HIS BAD FEATURE

Carson Now Has Seventeen Players, Including Six Pitchers and Three Catchers.

If Waco has a left-handed pitcher this season it will not be Maurice Murphy. The big southpaw yesterday was released to the Sherman club in the Texas-Oklahoma league, leaving only one port side finger with the aggregation. He is Cronin from Lawrence, Mass., and it is a question whether he can deliver the goods.

The absence of control won Murphy a berth in the bush league. He had everything that a pitcher needs to break into fast company, but he simply could not locate the plate. In all of the exhibition games in which Carson worked the big fellow he was wild, giving from four to seven bases on balls.

The worst feature of most left-handed pitchers is lack of control. Even Rube Marquard, who won nineteen straight games last season for the New York Giants, was dubbed as a "11,000 Beauty" the first two seasons he was in major league company, but he got so he could find the plate with remarkable regularity and made a record that greatly assisted the New York Nationals in winning the pennant.

The release of Murphy leaves Carson with seventeen players, including six pitchers and three catchers and it is probable that he will carry all of the men until after the opening of the season. For three long seasons Waco has been searching for a left-handed pitcher without success. In this little fellow Cronin, Carson has a southpaw who may do and who may not do. He has not got near the stuff that Murphy has, but he can find the plate occasionally and with a little experience and proper coaching he might make good with Texas League company.

Outside of the pitchers and catchers Carson has only one utility man and he can play any position on the field. Besides Tanner can hit and run the bases with any man on the team. He is naturally an infielder and plays shortstop, third or second base without getting out of his place.

The pitching staff looks good with the exception of a left-handed pitcher which is almost essential to a winning club to work against certain teams. It looks like Waco will again go through the season with a staff of four steady right-handed pitchers. In the event Cronin fails to display more class than he has heretofore in the exhibition games, but he has been sent against major league clubs in most instances and he has not had a fair test.

The four pitchers who are sure to stick are Jost, Lohman, Ogle and Helm, the latter a new pitcher from Houston, obtained in exchange for V. Miller, the blonde twirler who pitched good ball for Waco last season.

AMERICANS WIN.

Philadelphia Nationals Are Losers for Three Games.

Philadelphia, April 3.—The Philadelphia Americans took their third straight game from the local National league team today, 5 to 1. Pennock who pitched for the Americans, was hit freely, but managed to keep the hits scattered. Collins' three hits figured in the scoring of three of the Americans' five runs.

Score—R. H. E. Americans 000 210 200—5 11 0 Nationals 000 000 001—1 11 2 Pennock and Egan; Brennan, Seaton and Dooin, Howley.

WHITE SOX WIN FROM OMAHA

Callahan's Team Takes Exhibition Game at Oklahoma City 18 to 5 In Easy Fashion.

Oklahoma City, April 3.—After playing the Chicago White Sox to a standstill for six innings, the Omaha regulars thereafter and Callahan's regulars bombarded Lotz for sufficient runs to win an 18 to 5 victory here today.

Score—R. H. E. Chicago 100 130 337—18 29 2 Omaha 000 130 001—5 13 8 White, Lang and Kuhn; Applegate, Lotz and Johnson.

BASEBALL RESULTS.

At Atlanta—Toronto Internationals 3, Atlanta Southern 8.

At Richmond, Va.—Boston Nationals 19, Richmond, Virginia, League 1.

At Norfolk—New York Nationals 19, Norfolk, Virginia, League 4.

At Charlottesville, Va.—University of Virginia 6, Cornell 5.

At Lexington, Va.—Washington and Lee 8, St. Johns 3.

At Roanoke, Va.—V. P. L. 13, V. M. 1 3.

At Petersburg—Petersburg, Virginia, League 9, Providence Internationals 3.

At Raleigh—Philadelphia Athletics, second team, 3, Raleigh, Carolina, League 9.

Miss Wagner Wins.

New York, April 3.—Miss Marie Wagner, holder of the women's indoor lawn tennis championship, today defeated Mrs. C. M. Beard, former western champion, 4-2, 6-1 in the final round of the tournament. Miss Wagner therefore retains the title for another year. In the final round of doubles, Miss Wagner and Miss Clara Kuttroff defeated the Misses F. M. and Olive Fish 1-8, 6-2.

Uffenheimer Takes Game.

Philadelphia, April 3.—Dr. E. Uffenheimer of Philadelphia defeated J. E. Cope Morton, also of Philadelphia, in the afternoon game in the national amateur 18.2 balking billiard tournament by the score of 499 to 337. It was Uffenheimer's first victory, and the last match he will play in the tournament. Uffenheimer's high run was 91 and his average 19. Morton's high run was 49 and his average was 83-5.

JACK FROST RELEASED.

President Hermann of Reds Lets a Pitcher Out at Request.

Cincinnati, April 3.—President August Hermann of the Cincinnati National league baseball team has announced that Pitcher Jack Frost has been handed his unconditional release at his own request.

Frost was released to the Montreal club of the international league on Tuesday, but upon reporting at Cincinnati explained that he was still unfit for baseball.

May Legalize Boxing in Colorado.

Denver, April 3.—Prospects for legal ten round boxing contests in Colorado under a state boxing commission became brighter today when the senate considered boxing measures. After amending the bill to provide ten round bouts by clubs paying an annual license of \$250 the senate passed it on second reading, thus paving the way for final consideration. The measure has passed the house.

Pittsburg Nationals Lose.

Tulsa, Okla., April 3.—The Pittsburg regulars of the National League led by Honus Wagner, who played first and directed the team in the absence of Manager Fred Clarke, lost the opening game of the two-game series with the Sioux City Western League here today four to three. Camnitz pitched a good game for the Nationals, but was relieved by Cooper in the seventh, who was found for a three-bagger and several singles. The same clubs play here tomorrow.

TOO LATE TO CLASSIFY.

OLSEN DEFEATS GUS JORDAN

Second and Third Falls Are Awarded on Fouls on Austin Mat Thursday Night.

Austin April 3.—Jackson Olsen of Washington, D. C., tonight defeated Gus Jordan of Toledo, Ohio, in the fastest wrestling match ever seen here. The victor got the first fall in 40 minutes on a body and head scissors. He was awarded the second fall on a foul 8 minutes after they resumed, and another fall on foul was awarded him in another minute.

Olsen refused to accept the final fall on foul and 10 minutes later made his second straight fall with a scissors hold.

An Appeal.

We desire to build a tabernacle at once near the Katy shops. Will you assist in this work by mailing us a check for any amount you may desire to give? It will not be possible for me to see everybody personally, but you can be in this great work of building this new church by helping us. We need the place to worship in at once, in order that we may build a greater church in the future. Address me at the Fifth Street parsonage. M. C. DICKSON.

NOSTRILS AND HEAD STOPPED UP FROM COLD? TRY MY CATARRH BALM

Instantly Clears Air Passages; You Breathe Freely; Dull Headache Goes; Nasty Catarrhal Discharge Stops.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrh sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant

balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dripping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

THREE HUNDRED AT SCIENCE TALK

JUDGE CLIFFORD SMITH OF THE MOTHER CHURCH IN BOS. TON IS SPEAKER.

FIRST CHURCH HERE BRINGS HIM

Interesting Address on the Principles of Christian Science as the Faithful Understand.

Judge Clifford P. Smith, a member of the board of lecturers of the First Church of Christ (Scientist), of Boston, Mass., spoke to an audience of approximately 300 people at the Methodist theatre last night, on Christian Science. Judge Smith is recognized as one of the best informed speakers on the subject, and his discourse was not disappointing to his Waco audience. His pronunciation is clear and distinct, his voice far carrying, and his management of the subject held the attention of his hearers.

He was brought here under the auspices of the First Church of Christ (Scientist) and was introduced to the audience by Thomas J. Egan, a member of the church. He is widely known as a speaker on Christian Science, and is just completing an extensive trip. He came to Waco from El Paso and goes to Austin. He also spoke in San Antonio and Del Rio in this state, and has just completed a tour of the Pacific states. He is en route to Boston, and leaves for Austin this morning.

No little annoyance was occasioned the speaker and audience because of the unpreparedness of the theatre for the meeting. After the speaker and crowd had arrived, the theatre could not be cut on, there was no stage setting, and the seats and chairs had not been given attention. After some delay the theatre was placed in order, and the speaker began his address.

Judge Smith spoke as follows: "Christian Science or to read intelligently its literature, one needs either to be told or else to observe the distinction that it makes between ultimate or absolute reality and mere appearance, science or illusion; and one needs especially to notice this distinction in reference to man. As applied to man, it is the distinction between the real, ideal man and the human concept of man."

Natural science makes a similar distinction, though on a material plane, between the ultimate nature of reality and the view of it obtained through the physical senses. Christian Science also declares that the physical senses do not recognize things as they really are, and it goes further by resting its definition of reality upon a purely spiritual basis. According to Christian Science, nothing is truly real or good but God and His spiritual creation. Materialism is unreal and evil. There can be no addition to spiritual reality.

A Vital Distinction. In the application of this distinction to what is or is not man; Christian Science finds the ultimate point for drawing the line in the human mind; and it there makes the final separation between reality and unreality by declaring that the spiritual element of human consciousness is real and good, while the unspiritual element is unreal and evil.

That which is created by God, and is therefore really man, is like God, is His image or reflection; and is referred to in Christian Science as divine idea, true thought, spiritual consciousness, and the like. On the other hand, the supposititious opposite of this real and spiritual consciousness is referred to as error, illusion, false belief, material sense and the like. The principle of reality therefore, is God; and, as Mrs. Eddy has said, "To grasp the reality and order of being in its science, you must begin by reckoning God as the divine principle of all that really is" (Science and Health, p. 275.)

(When then referred, of course, to the absolute, spiritual fact, but Christian Science does not ignore the conditions which result from the "house divided against itself," that is called the human mind. It is that which seems to impose on man qualities and faculties that he does not derive from his maker, such as sin, disease and death, from which salvation is needed. Recognizing this, Christian Science not only declares the absolute truth of being, but from this point of vantage offers to improve all present conditions until they finally disappear by giving way to the divine reality.

Explains Misunderstandings. In Christian Science literature therefore, and in this lecture there will occur absolute statements, expressing the absolute, spiritual fact, as well as relative statements, referring to human conditions and stating what is scientifically true of them upon their plane. This explanation may be unnecessary, because the meaning of words is defined by their usage, but I trust that it may be helpful. Much of the misunderstanding of Christian Science results from the failure to notice, or to grasp, the distinction to which I have referred, and this can also be said in regard to the conflicting interpretations of the Bible, for the same distinction is expressed and implied in the New Testament.

If one could read the New Testament as if it contained a new subject he might observe that Christianity was originally based on the truth or reality of being. Its basic requirement was the knowledge of the truth concerning God and man; and we are informed by standard authorities that the Greek word in the gospel according to John that is translated "the truth," denotes absolute reality as opposed to what is merely apparent, seeming, or false.

Immortality. The failure to perceive or to retain this fact has perpetuated the belief of former ages that the fulfillment of human hope and faith depends on dying. Even now the majority of Christians appear to regard the kingdom of God or kingdom of heaven as a situation to be gained, partly or wholly, by dying. They expect to be ushered into the fullness of life by means of death. Considered as an original proposition, such a belief is like saying that one moves toward an object by going in the opposite direction. The only connection that death can have with heavenly life is that it is a negation of being, a phase of evil, which must be overcome in order to attain complete heaven or harmony. According to the teaching of Christ Jesus, all the possibilities of being exist here and now.

According to these sayings, heaven

is not the sequence of death; it is an active and living state of goodness. It is to be gained not by dying but by right living. It must be attained by expelling evil from human consciousness, so that the individual may reflect the life that is God. Immortality is the manifestation by man of the divine life. It is the reflection by man of the divine mind. Paul stated the necessity of the case when he said, "Let this mind be in you, which was also in Christ Jesus."

Way to Heaven.

From these premises the conclusion follows that the way to heaven is not through death, but through spiritual development and mental unfoldment. Salvation is progressive and its day is now. To be born again is to be awakened from the dream of life in matter. It is to forsake material belief and gain spiritual understanding. It is to gain that freedom of thought and action which constitutes full and perfect manhood. It occurs when one gets the darkness of evil is dispelled by the light of truth and love until the mortal element of the so-called human mind is completely displaced by the divine consciousness.

Our present situation was stated by John in these words: "We are the sons of God, and it doth not yet appear what we shall be." He did not mean that we shall ever be different from what we really are. He meant that we are the sons of God, though the reality of being sons of God does not appear. He did not foresee a loss of identity; he discerned the realization of true identity. With entire consistency Mrs. Eddy has said: "The real, ideal man, in proportion as the false and material disappears, the spiritual will disappear, and immortality, or the children of God, will appear as the only and eternal verities of man" (Science and Health, pp. 65, 476).

In short, the human concept of man is essentially erroneous, and it is demoralizing to believe that all human conditions are bettered in proportion as the evil or material element in the human mind is displaced by true thought. For illustration the subject of health. It has always been considered of vital importance, and now the world is undergoing a great awakening with respect to it.

Disease and Health. People are no longer content to accept ill health as something natural to man nor as a curse that cannot be removed. They are demanding of both science and religion a life that is less subject to disease and death. With this demand Christian Science is in full sympathy. Indeed, it is in no small measure the result of Christian Science which broke the fixedness of mortal belief and aroused the hope that has grown into a demand.

It is greatly to be desired, however, that the effort to get dominion over disease be not thwarted by continuing to admit and even to rely on that which is the cause and condition of disease rather than its preventive or cure. I refer to material sense and its subjective state, called matter and especially to the belief that material sense or any of its phases can remedy its own disorder.

What are disease and health? In the last analysis not only disease and health, but mortality and immortality are opposite modes of thought. On one hand is material sense, which has no principle—no cause or substance—and is simply an illusion, a dream of pain and pleasure in matter that in other words, is spiritual sense, which is created and sustained by God, the divine principle of all true being.

What Paul wrote to the Romans on this subject was both Christian and scientific. "To be carnally minded is death, but to be spiritually minded is life and peace." In these words he explicitly declares that life is a condition of mind or thought; and causation is analyzed as wholly metaphysical. The carnal, which sickens and dies is material; that is to say, material, while the thought which lives and enjoys the perfect attributes of life is spiritual; that is to say, emanating from spirit or God. In other words, it is spirit, health, and divine mind, that gives life and health, and is given through mental or thought.

Condition of Thought. Health, therefore, is primarily a mental and spiritual quality, and it is to be gained and preserved as such; that is, through the understanding of and obedience to the spiritual law which emanates from the divine mind. Disease, on the other hand, even the most physical disorder, is the palpable evidence of false belief. It is a condition incident to the supposition that man is a material selfhood and governed by a law of suffering, disability and death—governed by laws which divine life, truth and love could never make. Every lack of health, from beginning to mortal thought, it is a subjective condition of mortal element in human consciousness; it is a particular result of the general supposition that life inhabits matter and is mortal.

Scientific treatment of disease depends on the distinction between absolute or real being and the human or mortal concept of man. Freedom from disease follows the absolute knowing of the truth concerning God and man. One successfully with disease it must be resolved to a mental plane, in accordance with the divine law by which truth destroys error. Healing comes to pass when the supposed law of disease and death is broken by the actual law of life, and the unity of being is such that one individual can help another to obtain this victory.

Insofar as hygiene and sanitation denote cleanliness and purity, Christian Science is in full accord; and it commands not only a clean body and clean surroundings, but a clean mentality, not only pure food, but pure thoughts. Jesus intimated to the Pharisees that for outward cleanliness to be more than superficial it must be the result of inward cleanliness.

Dominion Over Evil.

There is another subject, closely connected with life and health, in which all people are presently interested; that is, dominion—dominion over adverse conditions, dominion over evil. Involvement therein is the difference between misery and happiness through out human affairs. According to the Bible, the law of our creation and being includes the decree, "over all the rights of man, it is one that exists in all its fullness as an idea that is apprehended and realized, even though the average man manifests more subjection than dominion.

This ideal was intimated by him to whom St. Paul referred as the man Christ Jesus; and it was he who said, "My peace I give unto you." His peace was the result of dominion; it was the result of power over whatever would disturb the harmony of man. An observation on this point by Mrs. Eddy was illuminating to me, and may be to you. Said she: "With our Master, life was not merely a sense of existence but an accompanying sense of power that subdued matter and brought to light immortality." (Science and Health, p. 267.) This spiritual vitality

CURES RHEUMATISM

Quickly Eases Stiff, Sore, Swollen Joints and Muscles—Drives Rheumatic Pains Away.

It is needless to suffer any longer with rheumatism and be all crippled up, and bent out of shape with its heartwrenching pains, when you can easily avoid it.

Rheumatism comes from weak, inactive kidneys, that fail to filter from the blood the poisonous waste matter and uric acid; and it is useless to rub on liniments or take ordinary remedies to relieve the pain. This only prolongs the misery and can't possibly cure you.

The only way to cure rheumatism is to remove the cause. The new discovery, Croxone, does this because it neutralizes and dissolves the poisonous substances and uric acid that lodge in the joints and muscles, to scratch and irritate and cause rheumatism, and cleans out and strengthens the stagnant uric kidneys, so they can filter the poison from the blood, and drive it on and out of the system.

Croxone is the most wonderful medicine ever made for curing chronic rheumatism, kidney troubles, and bladder disorders. You will find it different from all other remedies. There is nothing else on earth like it. It matters not how old you are, or how long you have suffered, it is practically impossible to make it into the human system without results. You will find relief from the first few doses, and you will be surprised how quickly all your misery and suffering will end.

An original package of Croxone costs but a trifle at any first class drug store. All druggists are authorized to sell it on a positive money-back guarantee. Three doses a day for a few days is often all that is ever needed to cure the worst backache or overcome urinary disorders.

For us to have his peace we must gain that true sense of power which he possessed and exercised.

Now, what was the secret of his dominion? By virtue of what did he possess such unlimited power? He disclosed the basis of it by saying: "I can of mine own self do nothing." That is to say, he possessed power or dominion only by virtue of man's relation to God—only by reason of man's unity with the infinite and omnipotent mind. It was this unity, this at-oneness, which he exemplified throughout his earthly career; and the main reason for the common lack of dominion is the common error that man is a material being separated from God. There is another aspect of dominion that is equally important. That is, dominion is not the power to interfere with the rightful and lawful order of the universe, nor is it the power of one person to impose his human will on another. It is the power to overcome disorder, to subdue discord, and to maintain the law of God. It is the power to demonstrate the truth of being. It is the power to overcome evil, to subdue sin, to drive out the evil on earth, and to bring forth the good.

Jesus Shows the Way.

Near the close of his earthly career Jesus said to his disciples, "Be of good cheer; I have overcome the world." That he accomplished was inexplicable or supernatural, what reason had they to "be of good cheer" because of his overcoming? Is it not fairly evident that he thus spoke because he had shown the way for them and for us?

Did not his overcoming of evil "bear witness unto the truth"? His acts of power were done in accordance with law—in accordance with the immutable law of God. His mighty works attested the presence, action, and power of divine principle. The signs which he furnished proved the true qualities of real being—of youth, being and mine—and proved it to be free from evil. So far from being supernatural his healing works were supremely natural, for they evinced the nature of God and man. They separated what is real and enduring from what is destructible and unreal.

By words and deeds he taught and proved the true idea of God and man, thus declaring their entire separation from evil. This was his mission; this was the method by which he was and is "the light of the world."

Such being the case, it was inevitable that the science of these works should be sooner or later discovered, and that they should be resumed on a scientific and permanent basis. This has now come to pass, in accordance with the Master's prophecy and promise of that which he said "will guide you into all truth."

Christian Science has come to discover and repeat what he knew and taught; to revive his original teaching; to restore the scope and complete the mission of primitive Christianity; to be that "Spirit of truth" which he foretold and promised.

Mary Baker Eddy. Some persons are not disposed to consider Christian Science seriously because it was discovered by a woman and by a person who was not previously known as a theologian. It must be admitted, however, that spiritual discernment is not determined by sex; and he is a poor student of history who expects this faculty to be developed only by human institutions. So far as favorable environment is concerned, Mrs. Eddy was well supplied with teaching and influence of a mother whose faith in God was of the purest and most practical character.

From childhood Mrs. Eddy was a profound student of the scriptures, and her unusual grasp of spiritual ideas was often observed by those who knew her best. For instance, her tutor and pastor, the Rev. Enoch Cressor of Tilton, N. H., once said this of her to his son: "Bright, good, pure, aye brilliant! I never before had a pupil with such depth and independence of thought. She has some great future, mark that. She is an intellectual and spiritual genius." These words were spoken of Mrs. Eddy as she was between the ages of fifteen and twenty-two. Her discovery of Christian Science came to pass at the age of forty-five, when she entered upon her larger career of service to humanity.

The attitude of existing churches toward her message made it necessary for Mrs. Eddy to found a new church; but the Church of Christ, Scientist, has gained members only as those who have come to Christian Science have gained a better life. Surely there is no cause for offense in this. It is the object of all churches, and none of them need feel a loss when a man finds in Christian Science what he could not, or even did not, find elsewhere.

Mrs. Eddy never sought a personal reward. Throughout her work as the leader of a great religious movement she consistently turned the attention of Christian Scientists away from herself to the message from God to man which was spoken through her. Her aim and hope, as she often said, were to "quicken and increase the beneficial effects of Christianity." (Science and Health, p. 307; Miscellaneous Writings, p. 207.) This spiritual vitality

ty of her message is proved by what it has already accomplished; but this is only a foretaste of the benefits that will accrue to humanity as this science is more widely understood and practiced.

The Comforter.

Christian Science is not something manufactured by Mrs. Eddy; it was unfolded to Mrs. Eddy and expressed by her in the manner described by the Master in his prophecy of the Comforter: "He shall not speak of himself; but whatsoever he shall hear, that shall he speak." In this way, Mrs. Eddy has been the means of giving to the world the science of God and His universe, including man, and especially this science as applied to humanity. It declares the one divine principle of the universe, separates the error from the truth, in human thought, furnishes the scientific method by which divine law is available in the case of every human need, and shows how evil can be overcome and abolished.

To the wise of this time Christian Science healing is the sign of man's complete dominion over evil. It signifies that no ill or evil—no harmful event or condition—is either lawful or natural; none is inevitable; none but what can be overcome with the law and power of God. Christian Science adopts the ideal of worship and service set forth by Isaiah: "To loose the bands of wickedness, to undo the heavy burdens, and to let the oppressed go free, and that ye break every yoke."

Christ Jesus once said: "Every plant, which my heavenly Father hath not planted, shall be rooted up." In other words, that only is real and enduring of which God is the author. All evil whether called mental, physical or moral, is illusory and unreal because it is contrary to the nature of the only cause and creator. This is the basis on which true healing is accomplished; and every case of Christian Science healing, therefore, advances the time when the last vestige of evil will be expelled from human experience and the Master's declaration will be fulfilled.

Nine Governors to Attend.

Washington, April 2.—Governors from nine states have signified their intention at being present at the sixteenth conference of education in the south at Richmond April 15. The announcement was made by C. F. Bourland, the executive secretary of the conference, who said the states whose governors would attend were Florida, Georgia, Kentucky, Mississippi, North Carolina, Oklahoma, Tennessee, Virginia and West Virginia. The conference will devote most of its time to the consideration of improving rural conditions in the south.

Houston Police Resigning.

Houston, Tex., April 3.—Taking time by the forelock the special policemen employed by Mayor Rice, and who reported direct to him independent of the police chief, are fast resigning. Former Ranger Henry L. Ransom, about whose head a storm broke that ended his retirement as police chief and who was at once made a special officer by Mayor Rice, is among the latest to sever his connection with the city government.

Texas Sheet Metal Workers to Meet.

Houston, Tex., April 3.—The sheet metal workers' association of Texas will convene in annual session on April 5. All local arrangements have been perfected.

Get Rid of That Tired Feeling

(Medical News.)

"That drowsy, tired, worn-out feeling which most of us have at the approach of warm weather comes from the poisoned impurities in the blood which feverishly react to sickness and poor health. At the first signs of spring a good, blood-purifying tonic should be taken by every member of the family.

The expense of making such a tonic will be small if one gets from the drug store ½ pint alcohol and 1 ounce karo-sene, then mix these with ½ cupful sugar, adding hot water to make a quart. A tablespoonful taken before meals will soon clear the blood of all impurities, enrich plumpness and attractiveness and restore lost appetite and energy. No known remedy is so strengthening and energizing to a tired, worn-out system as this old-fashioned body-regulator. It is one of the best health-restorers known to medical science."

HOW CAN WE SERVE YOU?

The Modern Trust Company plays its part and has its place through the life of man. At his birth it becomes the Guardian of his estate—sometimes, by necessity, of his person. It may have to house him; buy his clothes; send him to school. There are even instances where a proper his affairs during life, and when he joins the Silent Majority it watches with faithful eye over his loved ones and affords them protection it is not possible for any individual to give. May we talk your matters over with you? We make no charge for consultation, and all such matters are strictly confidential.

Seeds and Plants.

HEAVY RAINFALL IN SHORT TIME

WACO IS CENTER OF THE CLOUD-BURST WHICH CAME EARLY YESTERDAY.

NEARLY INCH AND A HALF HERE

Some Hail—All Points Surrounding Waco Report Precipitation. Will Benefit Crops.

Rain, accompanied by hail, drenched Waco and surrounding country yesterday morning, flooded the streets and gutters, and proved a severe test for the new storm sewer work recently laid in various parts of the city. The precipitation lasted only about an hour, but during that time 1.46 inch of rain fell. It was one of the heaviest rain falls in many months. Because of the volume of water which fell in such a short time, the storm sewers were overflowed, and water was ankle deep in the center of the business streets, while on Austin street in some cases it ran onto the sidewalks. The new sewer work proved its worth, however, for no damage was reported to any part of it, and within a few minutes after the terrific downpour stopped the sewers had cared for the overflow.

The rain came after two days of extremely hot and depressing weather, and it was followed last night with cooler weather.

The rainfall was general, from all sections of the county rain being reported. In most instances it was badly needed, and will prove a great benefit to crops. In some instances where reports were secured another rain came last night, while in others the fall was insufficient. All sections reported need of rain.

Waco seems to have been the center of the storm, the heaviest fall being recorded here, while this city and Elk were the only places where hail accompanied the fall.

Reports from the following towns in the county show the fall:

Elm Mott—Heavy rain from 7 until 12 o'clock, will be of much good to crops, which were badly in need of moisture. No hail accompanied the rain.

Elk—Heavy rain, accompanied by light hail, fell from 8:30 until 12 o'clock. Ground was exceedingly dry and rain will be beneficial.

West—Light rain, barely sprinkled. Rain badly needed.

Lorena—Sufficient rain to help crops. More rain needed.

Gholson—Light rain. Will be sufficient to help crops in the sandy land, but not enough for black land crops.

Speegleville—Rain fell for three hours and a half, and the fall was sufficient to help the lands which were very dry.

Leroy—A good rain fell from 7 until 12 o'clock, and another hard rain followed in the evening. The rain seemed general, and was badly needed.

Robinson—A light rain fell at about 8 o'clock in the morning. More rain is needed.

Hewitt—The heaviest rain of the season fell, 3/4 of an inch being recorded in an hour and a half of rainfall. The rain will be sufficient for crops for at least two weeks.

ALL IN A REVIVAL

LARGEST RELIGIOUS MOVEMENT EVER INAUGURATED IN WACO IS PLANNED.

Nine Baptist Churches to Unite Sunday, April 13—Visiting Speakers Are Coming.

Possibly the largest concerted religious movement ever inaugurated in the city will be launched Sunday, April 13, when nine of the Baptist churches will co-operate in a simultaneous revival service. The meeting will continue for three or four weeks. This includes all the white American Baptist churches in the city except Columbus street, which is now engaged in a revival meeting. The meetings will be in the nature of a general campaign. Besides the regular services daily in each of the churches, there will be a great central meeting in the heart of the city. Workers' conferences, shop meetings, prayer meetings and all manner of religious meetings will be conducted throughout the progress of the revival.

Dr. Weston Bruner of Atlanta, Ga., general evangelist of the home mission board, will have charge of the campaign. He will also lead in the preaching at the First Baptist church. The other pastors of the city will be aided by preachers and singers from the staff of evangelists of the home mission board.

Each local church has been planning for some time for these meetings, and it is expected to result in the largest religious movement of its kind ever attempted in the city.

Automobile Licenses.

The following automobile licenses were issued Wednesday:

John Drenkard, Mart, 30 horse power Overland.

W. L. Barron, Mart, 20 horse power Overland.

J. U. Johnson, Waco, 20 horse power Buick.

DR. MEZES SPEAKS

PRESIDENT OF THE UNIVERSITY OF TEXAS LECTURES AT CARROLL CHAPEL.

Gives Talk on Egypt With Illustrations—Is for Higher Education.

An appreciative audience gathered in Carroll chapel last night to hear Dr. S. E. Mezes, president of the University of Texas, in his illustrated lecture on Egypt. Dr. Mezes, who has traveled extensively, and with which he is thoroughly acquainted. Following his introduction in a friendly manner by President Brooks, Dr. Mezes expressed his friendship and fellowship for Baylor and all other institutions in the state laboring for the cause of higher education, emphasizing the statement that there can be no competition in the work of spreading knowledge and culture.

A country thoroughly satisfied with itself, and where the good is forever the enemy of the best was the manner in which the speaker characterized the country. He said it had a parallel in Mexico in many respects, such as the state of civilization, climate, lack of incentive to effort, and in the disposition to rid itself of undesirable rulers by assassination. The social standards and domestic tastes are very low, while the country today, as it has always been, is overriden by invaders from neighboring countries located at all points of the compass.

About the most up-to-date things in Egypt, Dr. Mezes said, are the railroads, which carry good trains and Pullman sleepers, the boats, hotels and the rates at the hotels. The people have the same physical characteristics he said, which they did 4000 years ago, he said, and in this connection he showed views of a mummy of 6000 years ago and those of modern Egyptians, and the general outlines were identical.

Of particular interest to the students was a description of the University of Cairo, where 12,000 pupils are enrolled, and which is reputed to be the oldest university extant, having been founded in the ninth century. There was a wealth of illustrative matter throughout the lecture.

Dr. Mezes arrived yesterday afternoon, was shown over the city by a committee from Baylor headed by Prof. Tessor, and returned to Austin at midnight. Many of those who heard him met him informally at the close of the lecture.

AT COLUMBUS STREET CHURCH.

Great Congregation Hears Dr. Riley Singing a Great Feature.

The threatening clouds did not keep the crowds away from the Columbus Street church last night. The preacher urged upon his hearers the importance and necessity for immediate salvation. He said positively that the world for himself, for fifty minutes the minister held the vast audience spellbound by his words of warning, driving every utterance he made home with unanswerable argument. He said men, if questioned as to their reason for not being Christians, would assign different and various reasons, but after all the real reason at the bottom of every man's rejection of Christ is sin. Sin in the heart, some cherishing a perfunctory secret and hidden sin that would come to light in the white light of the judgment throne if not discovered and revealed while yet here upon earth.

Charles Butler continues to lead the singing with marvelous power and skill. A great singer himself, he knows how to get others to sing. The leader himself will sing now, then just the choir, next the congregation without the choir, next the men only, then the ladies, then just the deacons, next all the preachers present, and finally everybody will join in one swelling chorus. The music is one of the attractive features of the meeting and will continue so throughout.

Dr. Riley speaks as usual this morning at Carroll chapel at 9 o'clock, at Columbus Street church, 10 a. m., at the Hippodrome, 12:15 to 1 o'clock, and at the church again, 8 p. m. The announcement was made last night there would be a service for women only in the Columbus Street church Saturday afternoon at 2 o'clock. It is expected that the large audience will be taxed to its capacity for that service. All the women of the city are invited. Especially it is hoped that the mothers be present.

Building Permits.

The following building permits were issued yesterday:

Mrs. B. H. Brown, 509 North Fifth street, remodeling, \$1500.

W. W. Humphreys, 304 North Second street, 2600 repairs.

Tobias C. Co., 1500 South Fifth street, remodeling, \$750.

William Morrow, Summer street between Twenty-second and Twenty-third, 4-room dwelling, \$700.

J. O. Beckley, North Eighteenth, 7-room 2-story dwelling, \$2800.

R. D. Roman, Herring Ave., 5-room dwelling, \$1250.

Local News Notes

A marriage license was issued yesterday to Ithabai Slaughter and Catherine Wallace.

Horace Pickett is auditing the books of the Waco City Waterworks. The books and the waterworks are audited every April, the auditing being done by contract.

A petition of voluntary bankruptcy was filed in the federal court yesterday by Sutton & Edwards, merchants at Crawford, McLennan county. The liabilities of the firm are \$11,122.70, the assets \$29,200, of which \$14,370 is claimed as exempt.

THIRTY THOUSAND FOR ADVERTISING

Y. M. B. L. SENT OUT A FEELER COMMITTEE TO LEARN SENTIMENT.

PEOPLE IN FAVOR OF THE PLAN

Fund Will Be Used to Put Waco Before the Country in Proper Light.

Acting on the report of a committee appointed to determine the attitude of large business interests of the city with reference to raising a fund for city advertising, the board of directors of the Young Men's Business League, in special session yesterday afternoon, decided to inaugurate a campaign to raise \$30,000 for the purpose.

Crate Dalton, as chairman of the "feeling" committee appointed Tuesday night to determine what view the larger business houses and proposed campaign, reported that his committee had visited socially the large concerns, and that the report of the committee was that the representative business men of Waco were in favor of putting on a campaign to advertise the city. He further announced that information gathered by his committee was that at least five of the men whom they had visited could be relied upon for a contribution of \$500 each for the project. Immediately after this report, a motion quickly passed that the campaign be launched. It was further planned that the campaign would be launched Tuesday night, at which time the general meeting of the league will be held.

Committee to Fix Plan.

President Frank Trau, on motion, appointed the following committee, to meet and outline plans for the campaign: W. V. Crawford, W. J. Mitchell, C. B. McCollum, H. Hagedorn, John R. Fisher, Perry Duncan, Crate Dalton, Frank West and Frank Trau. This committee will meet tonight and select ten team captains, and the contributors, note to be presented to the contributors.

Each team captain will select his own teammates, these to be announced at Tuesday night's meeting.

Just what plans of collecting the money will be used was not decided. It was suggested, however, that the notes be made to fall due, the first in sixty days and others thirty days apart, covering practically the entire year. This was not definitely adopted, however, and the committee will have to work this proposition out.

Confidence in the ability to raise the money was freely expressed. At a previous meeting there was some feeling that it would be a hard proposition, but the attitude of the large property holders and those heavily interested in Waco to advertise created renewed confidence in the directorate. At Tuesday night's meeting the project will be launched with a vim, and on the following Wednesday morning ten teams will go out after the money.

Watch For Wright.

Following the disposal of the project, Crate Dalton stated to the chair that he desired to say a few words. Walking so that would come to light in the white light of the judgment throne if not discovered and revealed while yet here upon earth.

Ad Club Regrets When Crawford Quits Presidency

At the called meeting of directors of the Waco Ad club, held last night in the office of T. H. Jackson, W. J. Mitchell was elected president to fill the unexpired term of W. V. Crawford, whose resignation was tendered and accepted by that body.

While the directory accepted Mr. Crawford's resignation, it did so with the utmost regrets, and many compliments were accorded him by the directors present. He also was tendered a vote of thanks, and made an oratory life member of the organization, in recognition of his faithful and untiring efforts performed since the beginning of the club.

Short talks were made by A. C. Patton, W. V. Crawford, W. J. Mitchell, Dr. W. B. Georgia and others. It was decided to hold the next general meeting of the Ad club one week from next Tuesday, the place of meeting to be decided upon later. This general meeting is expected to be a rousing one and there is no doubt that the entire membership will turn out to hear the good things that will be in store for them on this occasion.

Those present last night were: Returning resident W. V. Crawford, W. J. Mitchell, T. H. Jackson, A. C. Patton, George Stubbfield, A. H. Watter, Frank Trau, C. B. Harmon and Dr. W. B. Georgia.

AT THE TEMPLE TONIGHT.

Rabbi Warsaw Will Preach on Independence.

At the Temple tonight Rabbi Warsaw's subject will be "Independence." The subject of the subject, as Dr. Warsaw outlines it, is: "Is there such a thing as absolute independence? Would absolute independence stimulate or check one's development? For what sort of independence should we strive?"

The literary part of the sermon will consist of an orkan prelude, "Chauson d'Ete," responses, "Temple quartet," soprano solo, "Come Unto Me," organ postlude, "Marche Militaire."

Services begin at 8 o'clock. Saturday morning services at 10:30. Religious school at 10 a. m. Sunday morning.

FOR SCHOOL BUILDING

PLANS NOW BEING DRAWN—THE WORK TO COMMENCE SOON.

Will Be at Twentieth and Alexander Streets—To Be Fireproof. Some Additions.

Plans for the public school building, to be erected on the corner of Twentieth and Alexander streets, have been outlined by the building committee of the school board, and the project is now in the hands of an architect. The building complete will contain about twenty rooms. For the present, however, only the central portion of the structure will be erected. This will consist of ten rooms and basement. The building will be so arranged that two wings can be added to the main or central building.

The structure is to be of brick and concrete, the stair ways will be of steel or concrete, and the entire building will be built to secure plenty of air and ventilation. There will be six exits from the first floor and five from the basement, which will insure against disaster in case of fire. The building will be constructed as fire proof as possible, however. Class rooms are called for on each floor, while the second floor will be arranged so that three large rooms can be thrown into one, forming a large auditorium.

The building will be the most up-to-date school building in the city.

Plans are also being drawn by Superintendent J. C. Lattimore for additions to three other public school buildings. These are the South Eighth, the Sanger Avenue and the colored school building on North Seventh. Besides these additions are to be made to two other buildings. Just what these schools will be has not been determined by the board.

These improvements are to be done out of the \$120,000 bond issue voted for the purpose some time ago.

HOME ON COLCORD AVENUE

Construction on the R. A. McKinney Residence is to Start in Few Days.

Construction work on a two-story brick residence to be erected at 2600 Colcord avenue, Prospect Heights, for R. A. McKinney, will be started within the next few days. The building will be 48x56 feet and will cost approximately \$15,000. It will be of early English type of architecture, and will be located on a corner lot and provided with two entrances.

The home will be a new departure in residential construction in Waco, there is not a house in the city that will be like it when completed. It will be constructed of brick, with stone trimmings, stone steps and porches, with red tile roofing. On the left side will be constructed a porch, a screened sleeping porch will be provided. The halls and bath rooms will be of tile, the floors of hard wood finish. The building will be steam heated, but will be provided with open fireplaces. The latest improved electric service will be installed, and, in fact, every modern convenience is called for in the plans.

Architect G. R. Boom prepared the plans.

MISS SCARBOROUGH'S PUPILS.

Wni Two of the Places in Contest at Denton.

Baylor University won first place in two of the three contests of the Texas Inter-Collegiate Press Association at the annual convention of the association, now in session at Denton. Miss Pearl Wyatt won the gold medal in the short story contest with a story entitled "A Christmas Wish," and C. A. Benson won the gold medal in the poem contest with a poem entitled "The Immeasurable." The third contest and the only one in which Baylor did not take first place was that in essay writing.

The feat, which was also accomplished last year, comes as a very strong compliment to the English department at the university, where both of the winners are students in English G, a class in advanced English composition, taught by Miss Dorothy Scarborough, who received a telegram last night announcing the result of the state contest.

Miss Scarborough leaves this morning for Austin where she goes to read a paper before the Texas Folk Lore Society on "The Traditions of the Waco Indians."

Personal Mention

Roy E. Lane is in Temple on business.

Walter Gregg has been called to South Carolina by the illness of his father.

"Gus" Hoover, of the Cotton Belt, was in the city yesterday.

POLICE AFTER POOL HALLS

At Galveston Meeting Texas Chiefs Will Take Up the Subject.

The executive committee of the Chiefs of Police association of Texas met yesterday afternoon at 2 o'clock in the office of Chief Hollis Barron, who is a member of the association. The first matter taken up by the committee was the setting of the date for the meeting of the association in Galveston. The date set was June 24, 25 and 26. The committee instructed the secretary to notify the legislative committee to advise all members to be present at Galveston, some very important matters coming before the body.

A matter that will be of importance will be the regulation of pool halls, both as to the allowing of minors in pool rooms and the closing hours. At present pool halls may remain open all night under the law. Fred Long of the sheriff's department at Itasca said yesterday that the pool hall with the lack of regulation is at present one of the chief breeding places for crime in almost every town in the state. The chiefs of police have been strongly behind the framing of a law to govern pool halls for several years, but say that they have been thwarted repeatedly at Austin.

In the absence of President Barron of the association yesterday, Fred Long of Itasca presided. He was formerly president of the association. Mr. Barron was in Fort Worth attending court. Those present yesterday at the committee meeting were J. H. Bonds of Rockdale, S. S. Burkett of Yoakum, J. A. Thompson of West, Chief George Gamblin of Temple is a member of the executive committee, but was not able to attend.

To the Chiefs of Police association largely belongs the credit of the passing of the excellent vagrant law in force in Texas.

Deaths and Burials

Willie Jackson, died Wednesday night at 11:45 p. m. of meningitis. Internment was made yesterday afternoon at 2:30 at Greenwood.

M. Clayton Todd, died 4 years and 4 months ago of cholera. May 13, 14 and 15, will be changed from that place, and in case this happens there will be an effort made to secure the convention for Waco. There is a hitch in the arrangements relative to the holding of a carnival in Wichita Falls during the convention; some of the arrangements committee object to having the carnival.

Fire Chief Prescott said yesterday that no effort would be made to get the convention from Wichita, but that if a change became necessary there would be an attempt made to secure the three-day meeting. The convention was held in Waco a few years ago and the firemen of the state expressed themselves as pleased with the treatment received at the hands of the city.

More than 8,000,000 calves are slaughtered each year in the United States.

FIREMEN TO MEET IN MAY

If Wichita Falls Don't Want the Convention, City of Waco Will Take It.
